6-17/

4-21-22

4-21-22

Dig Trench I & II (further North  
+ South hills) Elderly Trench I  
has developed rough alignment  
of stones, probably tumbled wall  
inside of which fragments of  
early geometric - like pottery.

Other Trenches (III started to  
East) apparently only heavy  
red sherds  
for 4 Malle adzils

4-2

Find face of Wall in Trench III  
and order same continued Eastward  
to uncover more of face. Put in  
charge of Merritt. Open Trench IV  
to Eastward with purpose of further  
study of this wall. Eldridge in  
charge.

Clear bushes around East side  
of cave. Find Laying Trench  
in this direction by noon.

Cave partially fallen in and has  
been dug down determined to  
examine carefully.

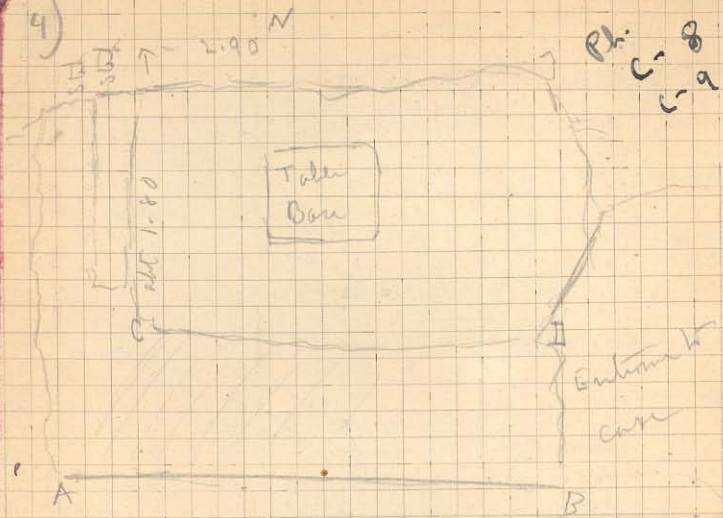

### afternoon

Find steeper directly under  
surface and looking up to  
lowest step.

North of present W entrance cave  
apparently loose shale + very few  
red thick shales - (later dug by  
former investigation of cave).  
Few very large stones in it.

Reach fallen roof of cave,  
loose stones etc. & stop to transfer  
trails to East side of cave.

4)

A-B. Artificially cut down all to 500  
at off platform to S side of terrace.

S.

C-D natural break. A-B-C-D originally  
same level all way across.

5)

4-26-22  
Work before breakfast, then rain  
for rest of day. Arrived at 2.

4-27-22 (Thursday)

49 Workmen

Start + enlarged face of pier  
level terrace all over Punta  
and adjoining part of Aero Terrace

Cave. Pigeon approaching from East  
end. About 1 mile below

Find very fine bottom with soil  
chiefly small stones & can look  
into mouth of cave.

One of workmen presents coin  
found in terrace top soil (123)

Shaly rock found close under  
overhang of rock. Work became  
difficult.

May 25.

Return to Carr terrace  
trench & continue dig  
along south edge of XI +  
Extension in order to find  
light of terrace wall. This corner  
stairs + 4 steps in situ  
between walls S-R + X-Y (p30)

Dig out room of painted plaster  
= A-B-X-Y & find design  
apparently as follows.

Red above

Large  
Oval-shaped  
probably white

→ probably originally all marked  
pattern though some have faded or  
or to appear almost white)

→ Three mixed lines 0.34 apart.

Find some of other yellow paint, but  
cannot determine original location  
Pattern of marked or patterned

Leads 1. East Wall about 1 Metre from South wall  
& was running along South wall etc.  
2 Metres to West. Some found in situ  
other fallen in earth. Try to reconstruct,  
but not very successful. Take off a  
good deal.

61

62) Have Deleor cement on bits of  
painted plaster.

The plaster is usually laid over  
a thin layer of mud clay, then, now  
that edge is exposed, softens easily &  
makes cementing difficult.

May 30

Decide to dig down to floor level  
in area T-C-H. (p. 30)

Cemetery B

10 min. to G. Nelson in  
charge, start 3 trenches  
in field to E of section 1  
II cemetery + large pine  
trees. Top soil very hard  
Nothing in way of tiles or  
potsherds found in the  
excavations of village corner  
along a share field further  
E. where the large American  
one dug from. Shows at present  
very deep hole filled + stones  
Continue 3 trenches to depth  
of abt. .80 - 1.00 One trench  
deeper per pine said in  
other soil of consistent  
hardness not showing any  
signs of ever having been dug.  
Abandon this field to end  
of day.

June 22

Dr. on to extreme East into 1.0  
workmen, where on slope of hill  
hope to find graves in rather sterile  
soil with out workings. Then  
according to analogy a typical  
field for burials (like site of  
Myrina cemetery) Nothing but  
one room of apparently late style and  
going from roof tiles found.

Mr. Van Lennep suddenly appear  
& lead me to deep hole supposedly  
dug by Armenian or even if one of  
his digging. Advise me to stick  
to this field & then to South for  
perforated investigations.

Remove some men to "Armenian  
hole" - Dr. 9 as conflicting stories &  
appearance of Dr. indicates that he probably  
never completed his task.

June 22 Friday

C-154

Find it To consist of  
well running N-S  
at N end to rough blue  
lime bed-stone

W. 60 (most of generally  
of 2 rows unmarked stones)

Length 4.80

To E - pile of broken  
tiles forming uneven  
surface - possibly worn  
slip. A few brown  
E- with red S.E. under

Other games day

## above tiles

Find number of iron  
marks but nothing more.

As over object very much  
under continuous digging

East end where tiles for  
+ actual burial probably.  
June 7 (Wednesday)

Clear out Thos + find  
stonic at bottom + East  
wall of dormer all pottery  
carefully collected + left.

Took many to  
hill side to East one more  
to examine coin + terrace  
+ wall where many roof-tiles found  
(see p. 66)

Find a complex of walls  
of unworked stone  
set up at intervals  
with many tiles + bits  
of pottery, some late  
Byzantine or Turkish glazed ware

Sub.  $\square = .20$ Before Remm  $\boxed{C+D}$ 

Depth of Grave at West end = .82

" " of Grave below soil = 20.25

A & B = Small stones in grave  
probably thrown in when grave robbed.

C &amp; D = Cover Slabs

X = Small stone supporting corner of C

Only shaded corner of C visible  
above ground before digging.

Earth floor.

but just lower script  
a few animals teeth.  
Not finished by  
evening

June 8

June 8 (Thursday)

9 Wokamen

Gr 15 South of Gr 11

Remm  $\boxed{C+D}$  & find earth  
very soft underneath.  
Cover slab at West end evidently  
removed & grave already robbed &  
of contents. Find only a few  
bones. Possibility  
of Gr 15 that our pits or  
were pulled from  
earth above it

(84)

G-15 + remaining cover slabs  
remount

□ = 20 (N)

G-158

Complete length of zone 1.80

Zone very well built of small stones.

Set closely together in rows. Stones not  
cut down. Best preservation at West end.  
at East Stone fallen in at both N & S sides.

East end of zone from West angle + N & S.

Curved at West end.

Probably from <sup>structure</sup> appearance of zone  
that lead in West, but no indications  
found.

Gr 16

(85)

Dug out pile of tiles to  
South of Gr 11 (see p 70)

Earth very soft all around it.  
Tiles cover a small  
mound of charred wood &  
earth with a few fragments  
of uncharred bone.

1. Bronze ring found at

cannot be drawn or photographed

June 4 / 22 (Friday)

June 9 (87)

18 Walsmes

Stop all trial trenches  
by now which have proved  
unproductive & have men  
fill in all but those containing  
gravel.

Tricks further East  
where a kind of terrace &  
mounds existed, contained  
large quantities of tiles &  
coarse pottery, but only  
identifiable fragments -  
late Byzantine & Turkish.  
Tricks in general show that  
almost everywhere but of  
coarse pottery & on a terrace  
has can be found whenever  
stones single or aligned  
in fields.

Hardness & softness of  
soil no reliable indication  
is now of burial found under  
very hard soil. Degree of

hardness seems to be often  
due to composition of soil.  
Many areas of sand definitely  
very soft.

Gr 17 (North of timber Gr 17  
fill near road) 2 Well aligned Plate 1  
stones, some evidently slightly  
worked found, & started to dig.  
Found a rather large deposit  
of corner tiles & pottery  
fragments around stone to  
south, but no bones.  
Different tiles in each  
earth while rest of earth in  
trench sandy. Not  
certain whether gone from  
trench covered over.

C-160

Small burned brick under  
tiles. Only a few tiles and  
cores of corner clay pit found.  
Tiles & bones - very thin.

Gr 18

June 10 Saturday June 10 (91)

All engaged in felling timber  
in open fields of cemetery B.

Finish by noon Only

(9) Timber gone & 3 others  
(11, 12, 15) left open.

June 11

Tr. No 29 (con)

Tank lined + fairly hard pink cement  
and, tiles covering bottom - best preserved  
at South end.

E-F - wall of small irregular stones  
Thickness of tiles E. of E-F distance abt.

1 m.

Space between E-F & Tank  
has some fill of

Wall E-F apparently aligned +  
well along West edge of N<sup>o</sup> 28

June 13 (Tues.)

Start new trench N<sup>o</sup> 30 Trench N<sup>o</sup> 30  
Terrace E

When busy all day  
removing immense  
blocks fallen from Elderdy  
Terrace II

Have one man  
complete digging out of tanks  
in Trench N<sup>o</sup> 29. Find that  
cemented sides just over  
edge of tile flooring.

June 14 (Wednesday)

St. Trench No 30

temporarily cut with

cleans going in court of

Tr XI which develop some  
surprise

(See drawing p 30) Remove 3 as  
consider it trouble

Find that drain forms  
angle at entrance into big drain  
of street at II

At pt. T find flight of  
poorly made steps leading into  
court. (3 steps)

South of E cobble pavement.

1. Coin found on this pavement

Well found under South  
stairs. Thoroughly covered over  
+ tiles. Well built of brick.  
Heads, blackened by fire.

2. Small pit found S-W angle  
of West steps.  
Contains:-

Large bowl

Saturday June 17)

6.5 Workmen

Have painted Stucco Room  
on Th ~~21~~ cleaned out by  
6 men & stucco removed.

One man cleaning out  
wall under stairs - which  
full of water.

In room find in corner  
C (see p 30) & along inside to West.

1. Small coin + type 304  
alt. 30 above floor level  
#.

2. alt half of small  
marble basin

3. Coin found in  
court yard among stucco. 305

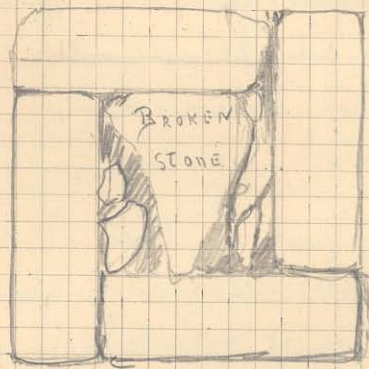

Was stucco broken off  
& removed in order to  
improve appearance of  
court yard

4. Coin just North &  
at level of bottom of  
threshold. (Buried under  
Workman)

306

## Top View of Altar

Scale  
□ = .05

Found in Room of painted  
stoned heavy stone  
layer of tiles directly over  
what appears to be clay  
floor stone. Down threshold  
somewhat higher & black  
forming North end apparently  
laid on top of one of these  
tiles.

In addition to tiles  
found some flat slabs  
& numerous very large  
round flat (brass with  
shaped) loom weights  
diameter .095 - .10

Reexam fallen stone  
from South of altar in  
center find a small burned  
area behind it.

1. Small stamped  
loom weight

Loom weights

Inscription found by Eldridge  
 in fine masonry at Top above broad  
 band length  
 height  
 thickness.

Musketon Tepe. No 4

June 28 Wednesday

Tepe No. 4

Work with 4 men in  
Long Valley Cemetery on

Musketon Tepe = Tepe No

Ground covered + small + medium sized  
stones + soft loose earth

Tepe, not pointed but low mound + almost flat top

Burial A alt 30

Below upper surface of Tepe.

Burial A.

To North Buried burial

was covered by

but no gpt. accumulation of

buried material

chained material; the chained

alt. 2.00 x .80

condition of stones, however,

indicates that burial, <sup>burning</sup> took

place on spot

Burial A

1. Fragments of skull (partially broken)

in N.E. corner. Only very small

fragments of other bones found.

2. Fragments of pottery - at least two different ones

3. Bronze pin

Thickness of buried material only alt.

10-15 cent. in general but alt. 25-35

region of head

Burial B

Bedded on small & thin

filed to height of old - roughly circled by  
same - but now definite circling wall.  
B now fresh in mass of

charcoal & burned earth

filling ~~water~~ 3 space from.

N-S but at East burned  $\frac{2}{3}$

area does not grow touch with

of stone Borer & Journal

the crest towards W.

While earth crumbly & dry  
from burning not baked into clay.

Position of body cannot be ascertained from remaining bones

1. Find large quantities of pottery

2

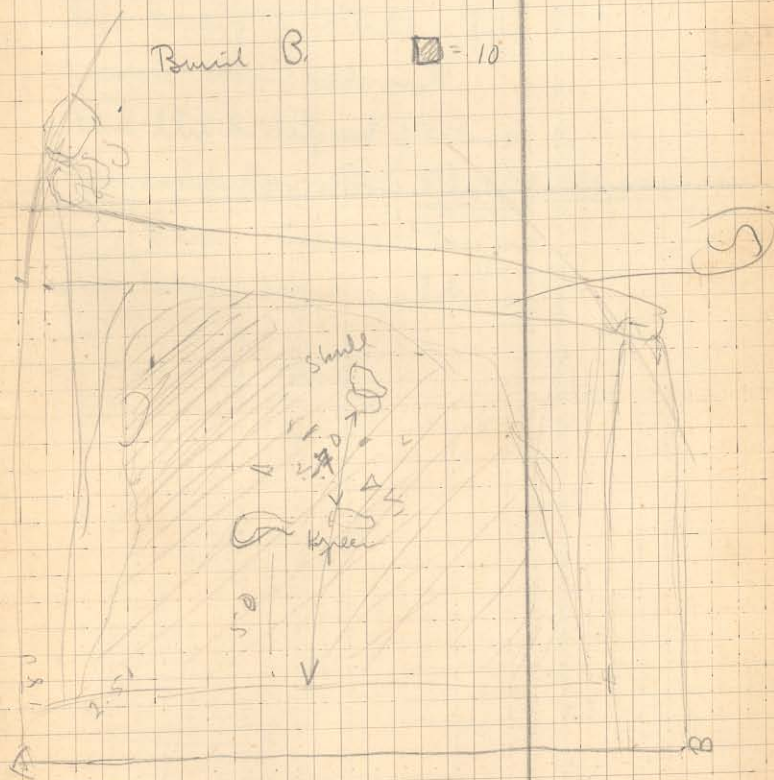

Burial B.

Burst B is 60 below

well  $X - Y$  is well is

abt 20 below top of Tepe

Basil B.

 $\square = 10$
