1.6. Günklurg

Der Humor des Americaners ist unverwüstlich. Ein Feuer, welches Millionen Dollars verzehrt, gilt als doppelter Gewinn: die Waaren sind dadurch verkauft und die Assecuranz-Compagnien können ihre zu niedrigen Prämien erhöhen. Die Eisen-Industrie wird als prosperirend geschildert, während von 700 Hochöfen nur 260 Arbeit haben. Ebenso verhält es sich mit anderen Industrien. Manche Eisenbahnund Kohlen-Actien steigen mit ihrem Deficit. Die Sparbanken in Massachussetts allein zeigen gegen das Vorjahr eine Abnahme von 80,000 Depositoren mit \$28,000,000. Die Geschäfte überhaupt sollen sich bessern, weil in 1878 nicht weniger als 10,478 Firmen mit \$234,383,132 ihre Zahlungen eingestellt haben. Fast alle Waaren haben auch voriges Jahr wieder hochst traurige Resultate geliefert, deshalb sind die Importationen auf ein Minimum reducirt worden: man nennt dieses eine günstige Handelsbilanz!

Wie sehr aber auch unsere Export-Artikel durch die Ungunst der Zeiten berührt werden, ergiebt sich aus den niedrigen Preisen von Baumwolle, Petroleum, Provisionen, &c. Von Getreide hat die Production in den letzten neun Jahren um 50% zugenommen und doch bleibt der Gesammtwerth der Ernten gegen 1868 um \$75,000,000 zurück, wie folgende Aufstellung zeigt:

	Ackerzahl	Getreide-Production	Werth der Ernten
1868.	66,715,926	Bushel 1,450,789,000	\$1,110,500,585
1869.	69,457,782	"1,491,412,000	"1,101,884,188
1876.	93,920,619	" 1,962,821,600	"935,008,844
1877.	93,150,288	" 2,178,934,646	"1,035,570,478

Gewiss höchst erfreuliche Quantitäten! Ob aber die Producenten die Returns 'flattering' nennen (wie die Zeitung, der wir diese Zahlen entlehnen) müssen wir

Während der Credit der Vereinigten Staaten mit Recht immer höher steigt, befinden sich viele Städte und "Counties" in einer sehr schwierigen Lage. Ein kleiner Ort "Elizabeth" in New Jersey, hat \$5,808,500 Schulden, bei einem steuerpflichtigen Vermögen von \$13,579,650. Ein andres Städtchen "Rahway" schuldet \$1,690,000; sein Vermögen beträgt \$3,093,275. Vielen anderen Städten im

werden gewinnen können. Betrachten wir die einzelnen Districte, so finden wir, werden gewinnen können. Betrachten wir die einzelnen Districte, so finden wir, dass am 17. ds. die Uplands ein Plus von 220,958 Ballen, dagegen New Orleans und Mobile ein Minus von 210,751 Ballen im Vergleich mit 1878 zeigten. Die beiden letzteren werden von jetzt an ihre Rückstände bald einholen, die Frage ist aber, ob die Uplands ihre schon erhaltenen Proportionen der grösseren Ernte ferner noch werden verbessern können. Alles zusammen genommen halten wir es für wahrscheinlich, dass der Mehrertrag der jetzigen Ernte, wozu Texas jedenfalls am meisten, mit seinen mangelhaften Communicationen aber nur graduell beisteuern wird — nicht vor Mitte Februar und dann erst allmälig im Lauf der folgenden Monate weiter hervortreten werde. Dass inzwischen die relativen Zufuhr-Zahlen besonders auf den Gang der Schätzungen und Preise dieser Ernte nicht ohne Einfluss auf den Gang der Schätzungen und Preise dieser Ernte nicht ohne Einfluss bleiben werden, ist ganz natürlich, da die Bewegungen der sechs Monate von 1. März bis Ende August theils von untergeordneter Bedeutung sind, theils auch, wie gewöhnlich, in den Aussichten für die folgende Ernte werden aufgehen müssen.

wie gewöhnlich, in den Aussichten für die folgende Ernte werden eufgehen müssen. Im Ganzen sind von der grossen Ernte bissoweit reichlich drei Millionen Ballen in den Seehäfen empfangen, und wenn wir auch die Statistiker, welche uns jetzt sechon wieder ein Deficit von 2 bis 600,000 Ballen in dem sichlbaren Total gegen frühere Jahre vorrechnen, gar nicht berücksichtigen, so können wir doch die Thatsache nicht bestreiten, dass die disponiblen Quantitäten diesseits wie in Europa jetzt überall kleiner sind als um diese Zeit im vorigen Jahre. Wir finden, dass besonders Liverpool & New Orleans viel zu wenig Baumwolle haben für die grossen Umsätze, welche sich grade dort concentriren, und wir erblicken darin um so grössere Gefahren für die Industrie, als diese durch ihre unseligen "Accepte" der "billigen" Blanco Offerten die Frage zu überstürzen und zu forciren fortfährt. Die Liste hervorragender Exporthäuser, welche sich durch Blanco-Verkäufe nach Europa ruinirt haben, hat kürzlich in New Orleans wieder einen tragischen Zuwachs erhalten, sie ist aber noch lange nicht geschlossen und wie sich weniger ehrenafte Ablader bei den reducirten Classen aus ihren noch offenen Eugagements herausreissen sollen, werden nur unbestochene Spinnmeister in den Fabriken ausfinden können.

Die hiesigen Lieferungsumsätze betrugen in den letzten acht Tagen w. f.:

Man schätzt das Quantum, welches von den südlichen Häfen auf Jan.—Februar Verschiffung nach Europa in Blanco verkauft ist, auf 3 @ 400,000 B. Natürlich werden sämmtliche südliche Märkte dadurch in fortwährender Spannung erhalten. An unsrer Börse dagegen, wo die südl. Exporthäuser, zur Deckung ihrer Engagements nach Europa, ebensoviele Hausse-Contracte P März—July laufen haben, operiren sämmtliche "Bunmers" à la baisse, weil sie darauf rechnen, dass die Zufuhren von jetzt an wieder zunehmen werden und auch die südlichen Exporteurs, sobald sie ihre Deckungskäufe im Süden für Europa ausführen, ihre hiesigen Contracte wieder abzuwickeln haben.

In unsren November—December Berichten.

In unsren November-December Berichten haben wir die Industrie wiederholt aufgefordert, mit den besseren Sorten keine Zeit zu verlieren und sich durch Ankäufe für längeren Bedarf von dem Spiel der Börsen gründlich zu emancipiren.

Heute sind die sogenannten "New Orleans Benders", (wovon Arkansas, Mississippi, Louisiana und Texas zusammen gewöhnlich ca. 150,000 Ballen, dieses Jahr aber in Folge des trocknen Sommers nicht soviel liefern) fast nur noch in strict ord. bis low middling Graden zu haben und die Classen aller gewöhnlichen Stapel middling und good middling sind in New Orleans, Mobile und Galveston um einen halben Cent schlechter, als in November: ein Verlust, den selbst eine namhafte Baisse für Spinner nicht wieder ersetzen kann. Auch hier bringen die besten Stapel Arkansas &c. jetzt fortwährend  $\frac{3}{3}$  bis  $\frac{1}{2}$ c über Börsen-Notirungen und wesentlich höhere Preise als im December.

Nach den heutigen Aufmachungen betragen in allen Häfen die

PROVISIONEN. Trotz grossen Vorräthen von Speck und Schmalz bei noch anhaltenden starken Schweinezufuhren sind Preise höher, weil einige Blanco-Verkäufer auf 50,000 Fass Schmalz &c. seit gestern suspendirt haben. Wir notiren: Wilcox 6.85, Prima Western 6.45. Speck halb long und halb short clear 4.90. Backs, Bellies, Shoulders nominell. Talg prima eity 6\frac{5}{6}c.

PETROLEUM. Die Ausfuhren aller Häfen vom 1. Januar bis 22. Inhaber fordern ½c höhere Preise, die aber bis jetzt nur von Blanco-Verkäufern bewilligt werden. Wir notiren New York 9½c, Philadelphia & Baltimore

FRUECHTE unverändert,

Westen geht es nicht besser. Die Besitzenden werden oft durch enorme Taxen vertrieben, die Arbeiterfamilien bleiben, und die Bond-Inhaber haben in vielen Fällen das Nachsehen. Die "New York Times" v. 16. dieses bemerkt hierüber:

"Repudiation is not peculiarly a Southern vice. There are Northern and Western municipalities which are as indifferent to the opinion of the financial world Western municipalities which are as indifferent to the opinion of the financial world as New-Orleans, and are as fixed in their resistance to taxation as the majority of Tennesseeans or the readjusters of Virginia. The State of New-York has its full quota... Eastern holders of Western bonds, county and municipal, have had plenty of experience of the law as applied to collections on account of interest and principal. Iowa has been prolific in law cases of this character. Missouri and Illinois still yield more than their share. The time is at hand when this class of creditors will have the same melancholy story to tell of cities, towns, and counties in this State and New-Jersey, in Pennsylvania, and probably Vermont."

Dabei wollen wir übrigens nicht unerwähnt lassen, dass auch wieder die Obliga tionen von Staaten wie New York, Massachusetts, Ohio, Connecticut, Rhode Island, &c. und von Städten, wie New York, Brooklyn, Boston, Philadelphia, Baltimore, &c. &c. unsrer Ansicht nach an Sicherheit in der ganzen Welt schwerlich übertroffen werden können!

Export-Verkäufe in Blanco:

Während die Baumwoll-Faiseurs im Süden noch an ihren früheren Lieferungs-Abschlüssen nach Europa zappeln, sind die billigen Blanco-Verkäufer hier gestern durch eine neue Hausse von 3 bis 5% in Petroleum, Speck, Schmalz &c. überrascht worden. Die Schweine kommen übrigens noch immer mächtig herein und auch die Vorräthe von Schmalz und Speck sind bedeutend grösser als voriges Jahr.

Der Consum in diesem Lande zeigt für das letzte Jahr eine Zunahme von 4% gegen 1877; das Geschäft ist aber für die Betheiligten nicht lohnend gewesen. Fast alle Gattungen sind im Preise 3@4 Cents gewichen. Nur Padangs haben sich ihrer schönen Qualität wegen das ganze Jahr hindurch fest behauptet und finden auch jetzt noch grosses Vertrauen für die nächsten sechs Monate.

Der Consum dieses Landes steigt von Jahr zu Jahr, aber der "Kampf um's Dasein" zwischen wenigen grossen und sehr vielen kleinen Fabriken dauert noch fort und hält mit der Tarif-Agitation in Washington die *ganze* Branche in fortwährender Ungewissheit und Spannung, gleichviel ob die Preise höher oder niedriger laufen.

Wir müssen unsere Freunde darauf aufmerksam machen, dass die hiesigen Wir müssen unsere Freunde darauf aufmerksam machen, dass die hiesigen Standards bedeutend reducirt worden sind. Die Auswahl von gutem Winterweizen wird nach den starken Herbstverschiffungen täglich knapper, der Sommerweizen aber fällt in Qualität überhaupt so sehr gering, dass darin selbst nach unsren neuen Typen nur mit besonderer Vorsicht operirt werden kann und Preise z. B. auch von 100 bis zu 74e herunter rangiren! Mehr als je müssen wir jetzt Jedem, der von hier Beziehungen machen will, die Wahl zuverlässiger Agenten empfehlen. Wir finden überdies, dass die geringen Sorten der Blanco-Verkäufer im Verhältniss zu den wirklich guten Gattungen stets viel zu hoch bezahlt werden.

In Roggen ist seit Kurzem wieder Mehreres für die Nordseehafen gemacht. Mais bleibt sehr billig, Saatwaare aber sehr rar und theuer.
