My Dear Dr. Schliemann,

I send you by this post the first 12 pages of your slips registered. I hope you will not think ^{that I am} ~~me~~ too fastidious in my corrections & that there are too many of them. But it seems to me that a great work such as yours will be ought to be made as perfect as possible. Your idea of introducing the book with your autobiography is a most excellent one; ~~your~~ ^{the} history of your life is not only quite as romantic & interesting as that of any of the Greek heroes of old, but it will, as you say, be most instructive to both the present & the future generations.

The printers have sent me only one set of slips, that set, namely, what I am now forwarding to you; would it not be more convenient if they sent me hereafter three sets, one to be sent to you after passing this in my hands, a second to be returned ^{with} the same corrections to the printers, & a third to be kept by myself? When the archaeological portion of the book is reached it will be useful for me to have the back-proofs in case ~~revisions~~ ^{revisions} are

needed to what has been said before. Just at present, of course, there is no such necessity.

I shall certainly not object to the fresh quotations you say you have given in the footnotes. They are of the highest importance in a scientific work, & are only objected to on the three grounds, (1) of the extra expense they cause w^h publishers do not like to incur, (2) of the additional trouble & need for scientific exactness they ^{impose upon} ~~present~~ the writer, & (3) of the lazy ignorance of a novel-reading public.

I am glad to say that Prof. Max Müller is quite well again. He & Mrs. Max Müller wish to be kindly remembered to you.

A friend of mine, Professor Parrar, Canon of Durham Cathedral, is about to visit Athens together with the Rev. R. G. Livingsstone, Fellow of Pembroke College, Oxford, but unfortunately will have but a short time to spare for Greece. ^{Dr.} Parrar is a very learned archeologist, & one of his chief reasons for visiting Greece is to see your Museum at Athens & the excavations at Mycenae. I am sure that when he arrives at Athens in about three weeks' time you, with your usual kindness, will

meet him at the Museum & explain to him all the wonderful objects you have discovered. I will give him a card of introduction to you, & he shall call in person upon you. You will find him a very profound scholar & agreeable companion.

I hear that the Americans have obtained a permit for excavating at Mycenae.

With kindest remembrances to yourself & Mrs. Schliemann, believe me to be

Yours very truly
A. H. Layce.

4th The ^{274(c)} mention of Troy (not Trôïé), Ulysses (not Odysseus, or, as Gladstone writes Odusseus — & if either, which is it to be?) — of Ithaca (not Ithaké), ~~leads~~ ^{me to point}, by your own example, my most earnest & urgent advice & entreaty — "by all the Gods & Goddesses" — that you will keep, as a general rule, to the recognized orthography of Greek names in English literature, as your book is meant for English readers: —

- (1) Because a reformed orthography, even if desirable, ~~what~~ can never be consistently maintained, as you see from the above cases, & many others in the later part of your MS.
- (2) Because the fashion which some innovators are trying to set

March 2nd 1880.

My dear Doctor!

In sending you the first packet of my corrected proofs, I have to make a few remarks, in order to facilitate future work. My correction of the Proofs has been much hindered by not having the MS. ^{with which} ~~for comparison~~. Besides the importance of comparison, I made a number of notes and queries on the margin of the MS. as Memoranda of the points to which I wished to call your attention in the Proofs. I learned yesterday in Albemarle Street that the Printers were returning the MS. direct to you, by your desire. I begging Mr. Murray in future to have the MS. sent to me, for

reasons I have mentioned, and I will forward it to you with my corrected Proofs. ^{I hope you will} ~~approve of this~~ (2nd) If you think I have made many corrections on the Proof, you will kindly remember, (1) how many little points are seen better at a second reading, & (2) how very much better such things are seen in print than in MS. Some of my corrections, which may seem to you trivial, are ^{made} for the sake of rhythm & euphony, but most are from that instinct which I always find a safer guide than grammatical rules. 3rd As I have told you more than once, your English is so nearly perfect, that I believe you will be glad, rather than offended, if I point out to you some few words & phrases, of

frequent recurrence, which strike me as not quite idiomatic English. I have thought of making a list of them for you, but meanwhile I will mention a few that occur in the 'Introduction' - such as the repeated use of 'further', where we should say (in most cases) 'also' or 'likewise'; - 'in' for 'at' a place (I won't stay to explain the cases where 'in' is preferable; - 'fantastic' for 'imaginary' or 'fanciful'; 'particular' & 'particularly' for 'special' & 'especially' (the question of when to use the one or other being generally a mere matter of taste); - & I may add, though it is not in the Introduction - '~~preserved~~' 'conserved' for 'preserved', of ancient remains, &c. The very slight nature of these & similar variations strikes me as furnishing one of the best practical tributes to good English. Another point is the idiomatic construction of sentences as depending on the order of the words

Some time ago I was reading ^{276 (c)} one of Freeman's articles in the 'Saturday' on his Greek travels, & I found it hard enough to swallow Mukēnai, &c. &c. but when I came to Lounion, I said - This is too much! It won't do while Byron is read, & with him I will still say "Place me on Lunium's marble step!" And with hundreds of ^{Greek} names unchangeably enshrined in English literature. Are we to alter the spelling of our editions of Bacon, Milton, &c. &c.? No! just as the demoniac in the Acts of the Apostles said to the false exorcists - "Jesus I know, & Paul I know, but who are ye?" - so the public taste & real scholarship will say, Ulysses I know, Keecrops, cadmus, & I know

132, 1
but who are ye - Who that call yourselves Odysseus & Klutmnaistia, Keecrops &c.?

Grates's high authority has failed to make the change, & it won't be made by Gladstone's wild rage for novelty, or Freeman's priggish affectation.

5th Observe, too, that you want two sets of forms for the same names, according as you follow Greek or Latin authors: - in ^{translating} Thabo, you must write Odusseus & Keecrops, but in following Pliny & Virgil, Ulysses & Keecrops.

For these reasons I have assimilated your Ms. to the recognized forms, as a general rule.

276(f)
for, in some cases, the ~~pure~~
pure Greek form is best -
as in uncommon names,
which have not become
fixed in their Latin forms; -
in ^{some} names where the Greek &
Latin forms are very different; -
& in some where the reformed
spelling has prevailed - ~~but~~
all these are exceptions.

For example, I would prefer
to Hercules (at least in Homer
& writing about Homer) Heracles,
but I would not write Herakles
any more than Perikles.

I must apologize for writing
so much on this question, but
I am sure I am right, & I
may you not to spoil your
book because Gladstone ^{has} sports
his by the way for poppety.
Yours most truly,
Philip Smith

is sure to be empowered by
custom, the irresistible force
of which will carry us back to
the old forms, as I have tried to
see in many such cases.
In Lord Lytton's Caxtons there
is a good story of young Pisio-
tatus Caxton, at school, taking
to spell his name Peisistratus,
& his father ^{writes that} says he had a present
to send to his son Pisistratus,
but he doesn't know any Peisistratus.
Likewise you may be sure that
the English public, & the great
body of English scholars too,
will refuse to recognize their
old friends Aeneas & Ulysses
as Aineias & Odysseus -
(or Odyseus, for it is another
argument against such changes,
that the reformers are at
variance with among themselves,
as well as each inconsistent with himself).

course of the Boncarbashi stream - If
you or desire it, I shall send some one
to follow this rivulet, from its junction
with the Icamander to its source - so
as to confirm my report. The plan of
the Hanai Dipo I cannot possibly get

will complete all I have in the way
of plans & drawings - I am now
occupied in writing the text - my numerous
affairs stand in the way of my getting
on as fast as I could wish. This week
the excavations will be completed, by which
time the fund in my hands for that
purpose will be exhausted - There is a

NEW-YORK, March 3rd 1880.

Dr. Henry Schliemann,

Dear Sir;

Enclosed you will please find draft for \$30 ¹¹/₁₆ which is the copy money on the sales of "Myceus" from Feb. 1st 1879 to Feb. 1st 1880. You will remember that in July last we settled for the sales up to Feb. 1879.

We have to thank you for your esteemed favor of Oct. last in regard to the new edition of "Proz". Mr. Welford has conferred with Mr. Murray with regard to the book and has explained that we scarcely feel willing to make so large an outlay as would be required on the new

edition of an old book. 136

It is a disappointment to us to lose the book, and we had hoped that some arrangement could be made whereby we could have the American market for an English edition of the work. We understand, however, that you are desirous of having an American copyright edition and, of course, we have no claim upon the book.

Our issue of "Myceus" was so successful and our relations with yourself have been so pleasant, that we allude to the matter merely to express our regrets. It was, however, a purely business risk which we did not feel justified in taking.

We remain,

The Bay, Parkfields, Putney S.W.
March 4th, 1880.

My dear Doctor,

After correcting the Proofs
which I received from Clowes on
Saturday night, I wrote you a
letter which I left in Albemarle
Street yesterday, to be posted with
the corrected Proofs (Slips 1-11). I
knew pack #12 as it happened in the middle of a
morning's post has brought
another set of Proofs (Slips 13-28)
which I am now correcting, in
order to send you as much as I
can get done for to-day's post, & the
rest by Saturday's post, in the world
which Clowes has sent me this time.
All the book-packets I send you
shall be registered.

In the Proofs of ^{new} Wood-Cuts
which Clowes has sent me (63 small
sheets) I see one thing which I
very much dislike. In the very
few cases - (why are they so few) -

1880
J. S. Smith

245(B)
in which the size of the objects
is ^{given} ~~expressed~~, it is expressed in
the very ugly & generally
almost illegible form of
fractions in very small figures.
You will remember the
pains I took in the "Allyceae"
to give the proper arithmetical
form of Ratios: — thus
1 : 3 (The natural size being
understood once for all).

In this way the figures were
legible & intelligible (unless
to people ignorant of arithmetic):
but now — you need only
look at the proofs !! Murray
says it can't be altered, but I
don't see why the figures can
be cut off the blocks, & added
in print with the lettering, as
was done in the "Allyceae".

My Paper was so full on
Tuesday that I forgot to say
that my hand is now quite
well, except the stiffness,
which will take a long time
to work off. How far I shall
recover my use in the finger
itself is at present very doubtful.
Constantine is in town, or
he would join me in very
kind regards.

Yours very truly,
Philip Smith.

P. S. I am not verifying the
references (though I ~~had~~ ^{had} them
carefully) as you told me that
was to be done by some one
you have engaged ^{especially for the} ~~separate~~ purpose.

As to the numbering of the
Cuts & Plates, I strongly advise
leaving this till the sheets are
made up, to avoid all chance
of confusion. We found this plan
another well with the "Allyceae".

Cher Monsieur Schliemann

Je reçois à l'instant votre lettre en date d'hier.

Je ne saurais vous donner les renseignements que vous me demandez pour justifier les frs. 1.336. — que M^{rs} Caillol & Saintpierre vous prient de me payer pour leur compte. Ces Messieurs ont une Maison de Commission & Transit à Marseille.

C'était à eux à vous envoyer la note de leurs frais. Quand c'est votre transit Fraissinet qui expédie, il agit de même ainsi. C'est donc à M^{rs} Caillol & St-Pierre que vous voudrez bien vous adresser pour obtenir les renseignements désirés. Quant à notre Cie il ne revient que frs. 505.55 (payés d'avance à Marseille) pour les 26 colis qui ont été taxés d'après le tarif. Soit 17 frs taxés au mètre cube à 18 fr le mètre cube et les 9 frs au poids. Les 17 frs cubant 24 m. c. = frs. 408. — Les 9 " pesant 635^{kg} à 14 " 19.05

qu'à m^{ettre} en remboursement
le montant de leurs frais aux
26 Colis qu'ils vous adressent, vous
pouvez leur écrire et leur remettre
directement ce qu'ils vous réclament.

Quant à moi, cher Monsieur, je
ne ferai aucune difficulté à vous
faire délivrer les 26 Colis à votre adresse
vu que je ne reconnais nullement
M^{rs} Caillol & Saintpierre, n'étant pas
leur représentant au Pérou.

Toujours à votre disposition,
Veuillez agréer, cher Monsieur,

As I wrote so fully on
Tuesday & Thursday, I am sure
you will excuse this hasty line
of thanks for your letter of the 28th.
You know how glad I should be to
see you near me, & I have no doubts
that your presence in England later

And the said Columbia Fire Insurance Company hereby agrees to make good unto the said assured, his executors, administrators and assigns, all such immediate loss or damage, not exceeding in amount the sum or sums insured, as above specified, nor the interest of the assured in the property, except as herein provided, as shall happen by fire to the property so specified, during the term of One year to wit: FROM the Seventh day of March one thousand eight hundred and Eighty at twelve o'clock, at noon, to the Seventh day of March one thousand eight hundred and Eighty One at twelve o'clock, at noon; the amount of loss or damage to be estimated according to the actual cash value of the property at the time of the loss, and to be paid sixty days after due notice and satisfactory proofs of the same shall have been made by the assured, and received at this office, in accordance with the terms and provisions of this Policy, unless the property be replaced, or the Company shall have given notice of their intention to rebuild or repair the damaged premises.

1. If an application, survey, plan or description of the property herein insured is referred to in this Policy, such application, survey, plan, or description shall be considered a part of this contract, and a warranty by the assured; and any false representation by the assured of the condition, situation or occupancy of the property, or any omission to make known every fact material to the risk, or an over-valuation, or any misrepresentation whatever, either in a written application or otherwise, or if the assured shall have, or shall hereafter make any other insurance on the property hereby insured, or any part thereof, without the consent of the Company written hereon; or if the above-mentioned premises shall be occupied or used so as to increase the risk, or become vacant or unoccupied, and so remain for more than thirty days without notice to, and consent of, this Company in writing; or the risk be increased by the erection or occupation of neighboring buildings, or by any means whatever within the control of the assured, without the assent of this Company endorsed hereon; or if it be a manufacturing establishment, running in whole or in part over, or extra time, or running at night, or if it shall cease to be operated without special agreement endorsed on this Policy; or if the property be sold or transferred, or any change takes place in title or possession, (except in case of succession, by reason of the death of the assured,) whether by legal process or judicial decree, or voluntary transfer or conveyance; or if this Policy shall be assigned before a loss, without the consent of the Company endorsed hereon; or if the interest of the assured in the property, whether as owner, trustee, consignee, factor, agent, mortgagee, lessee, or otherwise, be not truly stated in this Policy; or if the assured shall keep gunpowder, fire-works, nitro-glycerine, phosphorus, saltpetre, nitrate of soda, petroleum, naphtha, gasoline, benzine, benzole, or kerosene, or any other inflammable substance, or any other explosive substance, or by lightning, or explosions of any kind, unless fire ensues, and then for the loss or damage by fire only, which loss shall be determined by the value of the damaged property after the casualty by explosion or lightning.

2. This insurance does not apply to or cover jewels, jewelry, plate, watches, musical or scientific instruments, (piano-fortes in dwellings excepted,) ornaments, medals, patterns, printed music, printed books, engravings, paintings, picture frames, sculpture, casts, models, or curiosities, unless particularly specified in this Policy. This Company shall not be liable by virtue of this Policy, or any renewal thereof, for loss by theft at or after a fire; nor for money or bullion, bills, notes, accounts, deeds, evidences of debt, or securities of property of any kind; nor for any loss or damage by fire caused by means of an invasion, insurrection, riot, civil commotion, or military or usurped power, or by order of the civil authorities; nor for any loss in or on buildings unprovided with good and substantial stone or brick chimneys, the absence of which has been the cause of the fire; nor in consequence of any neglect or deviation from the laws or regulations of police, where such exist; nor for any loss caused by the explosion of gunpowder, or any explosive substance; nor by lightning, or explosions of any kind, unless fire ensues, and then for the loss or damage by fire only, which loss shall be determined by the value of the damaged property after the casualty by explosion or lightning.

3. If a building shall fall, except as the result of a fire, all insurance by this Company on it or its contents shall immediately cease and determine.

4. If the interest of the assured in the property be any other than the entire, unconditional and sole ownership of the property, for the use and benefit of the assured, or if the building insured stands on leased ground, it must be so represented to the Company, and so expressed in the written part of this Policy, otherwise the Policy shall be void. When property has been sold and delivered, or otherwise disposed of, so that all interest or liability on the part of the assured herein named has ceased, this insurance on such property shall immediately terminate. Goods held on storage must be separately and specifically insured.

* NOTE.—By "property held in trust," is intended property held under a deed of trust, or under the appointment of a court of law, or property held as collateral security, in which latter case this Company shall be liable only to the extent of the interest of the assured in such property.

5. If, during this insurance, the above-mentioned premises shall be used for any trade, business or vocation, or for storing, using or vending therein, any of the articles, goods or merchandise, denominated hazardous, or extra hazardous, or specially hazardous in the second class of hazards printed on the back of this Policy; or if the occupation of such premises be changed from one of the classes denominated extra hazardous or specially hazardous to that of another of the same class, except as herein specially agreed to in writing upon this Policy, then and from thenceforth, so long as the same shall be so appropriated, applied or used, this Policy shall cease and be of no force or effect.

6. The best endeavors of the assured shall be used in saving and protecting the property from damage at and after the fire; and in case of failure so to do, this Company will not be liable for damage caused by such failure; and there can be no abandonment to the Company of the property insured.

The use of general terms, or anything less than a distinct, specific agreement, clearly expressed, and endorsed on this Policy, shall not be construed as a waiver of any printed or written condition or restriction therein.

7. If at the happening of any fire the insured shall have other insurance which includes the premises or property herein insured, provided such Policy or Policies shall at any time or under any circumstances or contingency be liable to the insured for any amount whatever, such Policy or Policies, as between the insured and this Company, shall be considered as co-insurance, and liable to contribution, anything in said Policy or Policies to the contrary notwithstanding. And it is hereby declared and agreed that, in case of the assured holding any other Policy in this or any other Company, on the property insured, subject to conditions of average, this Policy shall be subject to average in like manner.

Re-insurance, in case of loss, to be settled in proportion as the sum re-insured shall bear to the whole sum covered by the re-insured Company.

8. This insurance may be terminated at any time at the request of the assured, in which case the Company shall retain the customary short rates for the time the Policy has been in force. The insurance may also be terminated at any time at the option of the Company, on giving notice to that effect, and refunding a ratable proportion of the premium for the unexpired term of the Policy.

9. Persons sustaining loss or damage by fire shall forthwith give notice of said loss to the Company, and, as soon thereafter as possible, render a

Petroleum.—The use of refined petroleum oil when of the standard of 120° Fahr. quality, for lights only in stores and dwellings is permitted, provided the same be drawn and the lamps trimmed and filled by daylight only, and without the use of artificial light. Gas.—The generating or evaporating within the building or contiguous thereto of any substance for a burning gas, or the use of gasoline and similar fluids for lighting, is prohibited under this Policy, unless permitted in writing hereon. Fences and other Yard Fixtures, also Store Furniture and Fixtures, are not covered by insurance on the building, but must be separately and specifically insured. Glass Doors and Windows, when plates are of the dimensions of nine square feet and more, and Pier or Mantel Glasses or Mirrors, must be separately and specifically insured. Frescoed Work, or gilding on walls or ceilings, is not covered by insurance on the building, but must be separately and specifically insured. Builders' Risk.—The working of carpenters, roofers, tin-smiths, gas-fitters, plumbers or other mechanics, in building, altering or repairing the premises named in this Policy, will vitiate the same, unless permission for such work be endorsed in writing hereon, except in dwelling-houses only, where five days are allowed in any one year for incidental repairs, without notice or endorsement. AND IT IS HEREBY UNDERSTOOD AND AGREED, by and between this Company and the assured, that this Policy is made and accepted in reference to the foregoing terms and conditions, and to the classes of hazards and memoranda printed on the back of this Policy, which are hereby declared to be a part of this contract, and are to be used and resorted to in order to determine the rights and obligations of the parties hereto, in all cases not herein otherwise specially provided for in writing.

In Witness whereof, The Columbia Fire Insurance Company, have caused these PRESENTS to be signed by their PRESIDENT and attested by their SECRETARY, in the City of New York, this Seventh day of March in the year of our Lord one thousand eight hundred and Eighty This Policy not valid unless countersigned by the regularly authorized Agent of the Company at Indianapolis

My dear Dr. Schliemann,

Dr. Farrer & Mr. Loringstone
are kindly taking this letter to you for me.
I hope that the last two sets of proofs
wh^{ch} I forwarded to you together have
arrived safely.

Many thanks for your letter & its
enclosures. I hope to spend a long

day in the South Kensington Museum
next Saturday; it is of the utmost
importance to have exactly correct
copies of the inscriptions. If the in-
scription on p. 368 of Troy has been
copied rightly it contains, I believe, the
name of Ithoi. But I shall know
better this is really so or not when I
examine the originals next Saturday.
The new inscription you send me
is very valuable. Was it found during

your last excavations?

I will send you an appendix on
the inscriptions as soon as possible.
They seem to me to be of supreme
importance for the history of writing in
Asia Minor, & I believe will do
much towards settling the disputed &
obscure question as to the origin of
the so-called Cypriote alphabet.

With very kind regards,

Yours very truly
A. H. Layce.

My Dear Schliemann

I wrote at once to as-
sure you of the safety of your
MS pp 752 to 961. also of
Drawings of Coins from which
per - for engraving with I will
obtain his estimator. Many
of them seem to me common
types - well known to numis-
matists & scarce worth re-en-
graving - but you are best
judge & manifest in outline
on your book.

You are mistaken in sup-
posing that I wish you to
insert Phaca in this Volume
of Troy. It is quite big en-
ough for Henry Schliemann.

ough, even too big, as it is.
 Pray-Pray remains I have
 for a separate publication.
 The two subjects are quite
 distinct.

I have received no inscriptions

I will send you copies of

FRANKLIN SQUARE,

NEW YORK, March 10, 1880.

Dear Sir:

We enclose herewith memo. of agreement for the publication of "Hios, the City and Country of the Trojans", which, if it meet your views, please to sign and return to us and we will send you duplicate memo. with our signature.

Respectfully,

Harper & Brothers,
per M.

D^r Henry Schliemann.

Agreement, made the Twelfth day of February 1880,
between Heinrich Schliemann, a citizen
of the United States of America and Harper
and Brothers, of the City of New York, Publishers—

Copyright 1. In consideration of the premises, said Schliemann hereby
grants and assigns to Harper and Brothers a work, the
subject or title of which is "Ilios, the City and Country
of the Trojans, with the most recent researches and Discoveries
on the Plains of Troy" with all translations, abridgments, selections,
dramatizations, and rights therefor of said work, or parts thereof,
with exclusive right and power, in their name, or as attorneys,
in the name of said Schliemann — to take out copyright thereof
and any and every renewal of copyright thereof, and to hold and
enjoy said copyright and renewal, and publish said work during
the term or terms thereof: guaranteeing and agreeing with them
that he is sole owner of said work, and has full power to make this
grant; that said work contains no matter which is a violation of any
other copyright, or which is scandalous or libellous; and that he
and his legal representatives will hold harmless and defend said
Harper and Brothers against any claim, demand, or recovery,
by reason of any such violation of another copyright, or any
scandalous or libellous matter in said work.

Author's guarantee

Publication 2. Harper and Brothers agree that they will publish
said work at their own expense, in such style as they deem
best suited to its sale; and will pay to said Heinrich
Schliemann, or his representatives or assigns, Ten per cent
on their trade-list (retail) price for each copy by them sold.
The trade-list (retail) price, on which percentage shall be
paid, shall be taken as of the style of binding in which the
largest number of copies shall have been sold. And Harper
and Brothers shall render always, on application therefor,
Semi-annual statements of account, in the months of March
and September; and make settlement in cash four
months after date of each statement. But for copies sold to
cavassers or otherwise, at a discount greater than that
allowed to the largest buyers in the regular trade, Harper
and Brothers shall pay the said Ten per cent,
only on the actual price received for each copy.

Author's royalty.

Statements of account and payment.

Selections, trans-
lations, abridgments
etc 3. Harper and Brothers may publish, or permit others
to publish in the United States and Canada, such selec-
tions

selections from said work as they think proper to benefit its sale, without compensation to the grantor herein; but the compensation for translations and dramatizations in the United States shall be subject to agreement between the parties hereto. If Harper and Brothers sell the right to publish selections or abridgments in the United States the revenue or payment therefor shall be divided equally between the parties hereto.

cancelled.

5. No insurance on the work, plates, or printed copies shall be effected for joint account.

Insurance

6. If the plates or type forms be rendered valueless by fire or otherwise, Harper and Brothers shall have the option of reproducing them or not; and if they decline so to do, then, after the sale of all copies remaining on hand, they shall remove the copyright and all rights herein granted to said Schlicmann, or his heir or assigns, and this contract shall terminate.

Destruction
of Plates

7. If, at any time after two years from the date of publication Harper and Brothers shall be satisfied that the public demand does not justify the continued publication of the work, or if for any other cause they shall deem its further publication improper or inexpedient, then they may offer, in writing, to said Schlicmann or his heirs and assigns, the plates and any original engravings or illustrations to said work at half cost, and all copies then on hand at cost; and said

P. S. I suppose Mr. Murray ^{291 (c)}
has written to you, as he promised,
about the mode of proceeding
with the Proofs. He supposed
that you would wait for the
corrected proofs from Virchow,
Burnouf, and Lagae, and,
with them I mine before you,
make your corrections —
either on my Proof or on
a clean one, as you prefer —
I then return it to us.

We shall then have a Revisé,
which I will ~~read~~ ^{compare} comparing
it with your corrected
Proof, I send it to you again
for revision before making
up. The made-up Sheets
will go to you, & if you will
return them to me, I will
read them finally. But
perhaps before we come to
that stage you may very
probably be in England.

The Bays, Parkfields, Putney.
^{291 (a)} March 11th 1880.

My dear Doctor!

I send you by to-day's Mail
the corrected Proofs down to the
end of the Introduction. Beyond
this, I have 6 slips (pp 35-40)
of Chapter I., which I keep back
till Saturday's Mail, to see if
any more comes from the
Printer in the mean time.

I need hardly say how much
more satisfactorily a complete
division can be carried than
a part of it, especially as I
saw in the MS. that the
very long Chapter will need
to be subdivided. Mr. Murray
called my attention to the
division of the Chapters, before

he knew of the pains I had ²⁹¹⁽⁶⁾ printed as diphthongs, but I
taken in subdividing the Introduction
which I hope you will approve.
During this morning's work
I have received from Murray
a further portion of the MS.
(pp 752 - 961), which I will
forthwith read, send to the
Printer.

I have nothing to add to
the Notes & Queries I have
made for you on the proof
in pencil, except one
remark in further illustration
of what I wrote to you last
week about orthography.

In reading the proof, my eye
is as much offended at the
open diphthongs, as the ear in
Pope's line (in his famous Epigram on Criticism)
"Though oft the ear the open vowels tire."
In correcting the MS. I had very
carefully marked them to be

supposed the printer has obeyed
superior orders, & much as I
regret the innovation on the
custom of English Literature
(the whole question turns on that one
phrase) I cannot of course advise
the trouble & expense of altering
them now. Only be sure the
book will suffer. Let me beg
you kindly to take this merely as
the expression of my own opinion,
put strongly, because I feel strongly;
but on all such points, of course,
the decision rests with you. I only
fulfil the part of a sincere friend
in giving my opinion freely.

I am sure you will be
glad to hear that my health is
still improving in spite of overwork,
as my brother has been ill, ^{as I have often said him} though
he is happily recovering quickly.
With kind regards, in which Louisa
would join if she were at home,
I remain, yours very truly,
Philip Smith.

Monsieur le Docteur Schliemann
à Athènes (Grèce)

Monsieur,

Je suis en possession de vos deux
lettres des 28 février et 14 mars, et j'ai l'honneur
de vous en remercier.

Rideaux. Je ne puis que vous confirmer ce
que je vous ai dit dans ma lettre du 19 février.
L'emballage en était fait à la réception de
votre télégramme, dans la pensée qu'il avait fait
comprendre que c'était au locataire de votre
appartement que je devais les vendre - je les
lui ai offerts, et il n'en a pas voulu; d'un
autre côté quand votre lettre m'est arrivée,
les colis étaient déjà emballés et enregistrés
au Chemin de fer.

Dans toute cette affaire, j'ai eu, comme
toujours, fait de mon mieux pour vous.

être agréable, et je regrette de vous voir
malgré moi un reproche que je ne mérite
nullement, et que je ne puis accepter.

S'il vous est impossible d'utiliser vos
vieux à Athènes, vous pouvez les renvoyer
ici, et j'en tirerai le meilleur parti possible.
Transport de votre Mobilier. Je me suis conformé
à vos instructions, en vous l'expédiant par
la Compagnie Pleyrier. Je réglerai avec
Rognancourt ce qui lui est dû - Les 1336 f.
que vous avez payés représentent donc le
prix du transport de Paris à Marseille d'abord,
et de Marseille à Athènes.

Bail St Michel & Bail Babour. Monsieur
Babour semble accepter un nouveau bail
pour 9 ans seulement, au lieu de 15 ans
qu'il demandait primitivement, mais il ne
vous en fait aucune augmentation; Que
faute-il faire?

Appart. Vacant. Je n'ai pas encore tenu à
louer - je ne pense pas que le voisinage de

de la Boucherie y contribue, puisque nous
avons d'entre eux au dessous - Il a besoin
de réparations, mais je ne crois pas devoir
lui faire faire avant que la location n'en
soit assurée.

Assurance de vos maisons. Vos maisons sont
assurées contre l'incendie pour leur valeur,
mais, elles ne le sont pas pour les risques
locatifs & le recours des voisins. La
prime annuelle est presque insignifiante
(environ 06 Centimes pour 1.000 f.)

En présence d'incendies assez fréquents,
je crois prudent de vous engager à faire
les assurances à la Cie La mutuelle à
laquelle les constructions sont assurées
- Cette compagnie jusqu'alors n'aurait
pas ces risques.

Je pense que 50.000 f pour la rue de
Marcade

80.000 f pour la rue de Calais
et 80.000 f pour le B^d St Michel seraient
suffisants.

Another similar case

occurs on p 714 of the illd., where
the subjects grouped under
the old No 100, one is marked
No 30 & belongs ^{to} (p 713-4), the four
whorls, marked No 39, belong to p 715 &
but the Millstone (marked No 46)
is not referred to till several
pages later (p 731). Would it not
be better to cut the block, so as
to get Nos 30 & 46 in their places,
& to cut away the 4 whorls, &
re-engrave in a group to be
put in their proper place?

If you will kindly write
how ~~that~~ you would wish these
& similar cases dealt with, your
reply would probably arrive
before the proof is ready to
be sent to you.

Excuse haste for the post
& believe me,
Yours very truly,

The Bays, Parkfields, Putney, S.W.
March 13th, 1880.

My dear Doctor,

Since I wrote to you on
Thursday, with the corrected slips
to the end of the 'Introduction',
I have received from the Printer
more proof, to Slip 40 inclusive,
all of which I send you, corrected,
by to-day's post. I have this
moment received your letter
of the 6th of March, & reply to the
several enquiries in it.

1st I have understood that the
size & form of the page were settled
between you & Mr. Murray; but,
if I were to give an opinion from
the slip proofs, I should say that
a wider page would be out of
proportion to the size of the type,
I would fatigue the reader in
carrying his eyes across it.

2nd I know that Mr. Murray has
discreetly printed & send proofs
regularly to Sayce, Virchow, & Burnouf.
3rd I thought I had explained to
you that I sent the first 662 pages
of MS. to the Printer, as they formed
the complete introduction ~~to the~~ ^{the} ~~Chapters~~

I kept back the pages (663-751) as
they formed so small a part of
the Description of the First City,
I left off in the middle of a sentence,
in order to read them with the
next portion, which I then expected
very soon, & the Printer had
abundance to go on with. I have
since corrected these pages, &
am making rapid progress
with the MS. received on Tuesday,
all of which will be in the
Printer's hands on Monday.

In my further reading ~~of~~
the MS. I ~~am~~ incline to think
that it won't do to contemplate
any alteration of your numbers of

the engravings; but I find one
or two cases where they seem
very much out of order —

First & chiefly: —

On p 682 of the MS. you
insert the old "Plate of Idols",
but you only mark three of
them with new numbers.

Another of these three
only 12a (old N. 89) belongs to p 682. MS.
N. 45 (old N. 30) is not referred
to till p 725, & N. 105 (old N. 114)
much later on in the book.

Will not these back references
seem awkward & embarrassing
to the reader? And do you
mean the figures ^{of idols} on the Plate,
which you have not marked
with new numbers, & be used at all?

If not, would it not be better to
have separate new engravings of
those you mean to keep, so as
to put them in their proper places?
or perhaps the Printer could
make separate casts of them

P. S. On looking at your letter again, I understand you to mean that the Revises which I received from you yesterday (namely Slips 1-76, slips 65-68 missing) are a second set with further corrections besides what you had already sent to Floures. I wrote to them yesterday & return me all the corrected Revises in their hands, I have not got their answer yet. But I suppose they sent to you at Leipzig those belonging to the 2 sheets which they made up prematurely. If so, I shall receive them back from you.

290 (8)

I have not yet got their
answer to the question
how much the whole
book will print in sheets.

Flowers returned me
yesterday my Corrected First
Proofs, Slips 113-144. I had
previously received 1-99 -
Do you know where 100-112 are?

Dear Sir

I delivered all
the corrected proofs at Albemarle
St. about 10 days ago.

They were really ready a
month ago. but as Sunday ^{before}
there was no hurry.

I did not take them in
until I received a message
to deliver the blocks to Clow,
and then Mr Murray
took them to send up to you.

and no doubt ere this
you will have had them.
I am truly sorry if I have
caused you any inconvenience
and beg to assure you I
have every reason to
value your good opinion
and so I trust you will
accept my apology and
explanation

I am

Dear Sir

Yours truly

One line for Supplemental Mail
I say I have received Ms. Sp 1186
Also, I have thought of a much
better plan about the Plate of Dols
namely, to insert the whole Plate
at the place where you make a
general reference to the Dols.
I refer forward to No-12a, & backward to
No-105. I have directed the
Printer accordingly. I hope that
will reach you with my letter of the 15th.

Dear Sir,

I have the very best prospects to succeed here if I should be able to start at once a college for modern languages on a small scale. As I am only provided with travelling expenses as far as Italy 20 or 25 Pounds would help me a great deal in my enterprise. If you would please to advance me that amount for about 2 weeks I should be very much obliged to you. Please yourself with regard to my demand and do not fail to send your reply as soon as convenient to your

obedient. humble servant

Dear Dr. Schliemann, ^{251 (6)} Queen's Coll. Oxford. March 16th /80.
I have made careful copies of all the possible inscriptions in
your Trojan collection. Many corrections will have to be made in
the published copies. Some of the supposed inscriptions turn out,
I believe, to be ornaments ^{which}, others have been incorrectly copied; but
some are quite correct. My reading of them ^{on the whole} was based, unfortunately,
on an inaccurate copy. At present I am engaged in trying to
make something out of the revised inscriptions; the only discovery of
importance I have made is that the terra-cotta cone "inscribed
with Cypriote characters", found by George Smith in the palace of Sar-
=danapalus ^(B.C. 650) at Kouyunjik & figured on p. 423 of his "Assyrian Discover-
ies" is almost identical in shape & material with the ^{two} funnel-shaped
cones you found at Troy & that the characters upon it belong to what I now
call the Trojan form of the Cypriote syllabary. A. H. S.

Honolulu March 16. 1880

Dear Dr. Schlegelmann.

N.S. Only a few lines to accompany
the plan of Hanai section of part
of the mound lately excavated - & drawings
of a few objects, and footprints, on some
dried bricks, of child & dog. I have to
acknowledge receipt of your letter enclosing
a second lot of engravings to accompany
H. T. paper. Today I have recd. a letter
from Dr. Vichow. in which he asks me
for more information about H. T. He
writes that he is preparing for publication
the most important results of the excavations.
The subject he remarks, is too large and
extended for giving all details in your
forthcoming work.

In the general plan of Hanai Paper
you will observe the parts pointed in brown
are those which have been excavated - the
dotted lines are conjectural. Without
an accompanying explanation it may be
difficult for you to understand the nature

of the walls - I have still to add to
the drawings, a second engraved whole,
which I could not find today to copy - &
two portions of the outer wall -

With kind regards.

Yours very truly

Frank Folwell

comparison with the originals,
both for phraseology & punctuation.
In very few cases have I the books
to refer to, but there are several
in which I feel sure that the
copy cannot possibly be right.

In reading both the MS. Proofs
my attention has been recalled
to the question about which you
asked me once before — the
frequent use of "my honoured friend".
In many cases I struck out "honoured",
but even the simpler "friend"
strikes me as occurring too often.
I would suggest that the general
rule should be that which is usual
in literature — Use the name
only, with "Mr.", "Dr.", or "Prof." for
living persons, reserving "friend"
& "honoured friend" for special
marks of personal intimacy & respect.
So use it always goes far to make it
unmeaning. While printing a book all

I write again by Saturday mail.

The Bays, Parkfields, Putney, S.W.
March 18th 1880.

My dear Doctor,

I had just finished 56
correcting the Slip Proofs up to ~~1180~~
for to-day's mail, & the whole of
the MS. up to 1180 for the Printer,
when the post brought me 12
more slips of Proof (to p. 68), &
at the same time I received
from Mr. Murray the fresh
parcel of MS. (pp. 1181-1660).
Of the latter I will only now say,
in reply to your kind note received
yesterday, that, if it is like all
I have read hitherto, it will
have my warm admiration.
Of the proofs, I send you to-day
as far as the end of the Sections on
the Natural History of the Food.
I keep back for another post the
next portion (part of the Ethnography).

not only for want of time to finish it this afternoon, but still more because I want to read it as a whole, & to judge whether it would not be well to make it a separate chapter. In reading the MS I came to the conclusion that the History of ^{& the discussing of the site} Profr (from somewhere about p 400 - I didn't note the exact page - to p 662) ought at all events to form a separate Chapter, if not two. As I proceed, I keep a Table of contents so as to ~~have~~ ^{have} the divisions before my eye, & to be able to refer to them.

With the same object, I made out - as I go along - a List of the Illustrations, so as to be able to find out those referred to elsewhere than in the place where they are inserted. Careful as you have been in

placing & numbering the illustrations, I find a good many minor questions arise about them, but it would only lead to confusion to write to you separately about these: it is much better to place them before you (like the other doubts, questions, & suggestions) at their places on the Proofs, where you can at once settle them as they occur.

In the your correction of the Proofs, I wish to bring two matters under your notice: -

- (1) As you said that you were employing a young scholar ^{references to} specially to verify the quotations from classical authors, I have not felt it necessary to do that work, but I always read them & correct what I find to need it.
- (2) The Quotations from English Authors will need very careful

Dear Dr Schliemann.

I have to acknowledge the
 receipt of 2 packets of MS & ^(pp: 1180-1662)
 of your letter of March 11th.

As regards the page, my
 father desires me to say that
 having made a very careful es-
 timate of the size of the book,
 he thought it best to make the
^{type} ~~ledge~~ slightly narrower than the
 last specimen sent to you; by

this means we obtain a sufficiently wide margin, without the necessity of increasing the size of the paper by one inch, for that increase would have tended to give the book a clumsy appearance.

On the page we have adopted the letterpress will amount to about 650 or 700 pages.

My father is still of opinion that it would be advisable

to omit "Ithaca" for the present, if you will consent to do so, or, at least to hold it back until we can ascertain exactly, what will be the extent of the volume.

Whymper and Cooper have sent in their accounts, for the amount of which my father proposes to draw on Messrs Schröder as soon as he shall have heard from you, for by that time he will have paid the accounts.

Monsieur,

Nous avons l'honneur de répondre
à votre lettre du 18 Mars courant.

Le coût du transport de Paris
au Pirée se compose de deux élé-
ments dont l'un, le transport de
Paris à Marseille, concerne seulement
la C^{ie} du Chemin de fer. Le tarif
usité pour cette partie du trajet
est de 10 f. 0/0 K^{os} (meubles lourds),
et de 15 f. pour les meubles légers;
c'est à dire, pour ceux qui, sous
le volume d'un mètre cube, ne
présentent que 200 K^{os} ou moins.

A ce tarif de traction s'ajoutent
les frais accessoires ordinaires,
(camionnage, manutention &c.).

Pour le transport de Marseille
au Pirée, notre fret ordinaire
pour les meubles est de 20 f^{us} par

d'articles tout à fait lourds.

Il ne nous serait possible de
vous indiquer un prix unique de
Paris au Pirée que si nous connaissions
de quels articles doit se composer
le mobilier au sujet duquel vous
avez bien voulu nous écrire.

Here is a new calumny
(or rather a notice of it) from
your enemies - who are doing
all they can to understate your
great discoveries & even attack
such an authority as N. Virchow
most impudently. The author
of the attack is Dr. Steplani
a German - & Member of
the Imperial Academy, St.
Petersburg. I hope this attack
will be properly refuted by
yourself or by Dr. Virchow -
as otherwise there will be
no chance whatever to dispose
of your collection here; - but
I am sure you will have no
difficulty to triumph over
these vile & envenomed

disant servants. I have duly
 rec^d yr kind letter & the letter
 for Mr Zatoff - & I have
 sent it to him with my
 instructions. I will inform
 you of the results when I
 get his answer. We have
 frosts & cold winds here yet!

How I envy your warmer
 climate. If ever I succeed
 to realise, profitably, my
 fortune, we is all in lands
 & represents a very large
 capital (for Russia) - i.e.
 about - 500,000 R. I think I will
 settle in Athens - & we will
 be very pleasing for me
 & my sister who is a
 classical & sauerit scholar
 of some learning.

With best wishes & respects,
 I have the honor to be, honored
 & honored Doctor - ever your
 faithful & obliged servant

Мы получили отъ известнаго археолога доктора Шлимана изъ Афинъ отъ 14-го марта, письмо, изъ котораго извлекаемъ слѣдующее:

«Недавно вернулся изъ Малой Азіи, гдѣ совершенно закончилъ раскопки Трои, начатыя мною въ апрѣлѣ 1870 года. Десять лѣтъ боролся я съ громадными затрудненіями, между которыми главѣйшимъ было накопленіе разнаго рода обломковъ на мѣстѣ древняго города. Надобно было разрывать пѣчу на глубинѣ болѣе шестнадцати метровъ, зато я нашолъ на этомъ мѣстѣ остатки семи различныхъ городовъ, существовавшихъ здѣсь въ глубокой древности. Послѣднимъ изъ нихъ были историческій Иліонъ, основанный золотцами, изгнанными изъ Греціи нашествіемъ дорійцевъ, въ XI-мъ вѣкѣ до нашей эры. Подъ городомъ, воспѣтымъ Гомеромъ, былъ другой городъ—лидійскій, представляющій величайшій интересъ для археологовъ въ томъ отношеніи, что всѣ найденные мною тамъ вазы и сосуды представляютъ поразительное сходство съ старинными этрускими вазами. Такимъ образомъ, подтверждается преданіе, приводимое Геродотомъ, что родоначальникомъ этрусковъ были лидійцы. Ниже этого города открыты развалины третьяго, гдѣ найдено много статуй Минервы съ головою совы, отчего она и получила прозвище «glauco-ris». Далѣе, слѣдовалъ еще городъ, гдѣ открыто множество идоловъ. Но самымъ интереснымъ открытіемъ для науки были развалины города, истребленнаго сильнымъ пожаромъ, что доказывалъ каждый камень, каждый черепокъ, тамъ найденный, также какъ трупы вооруженныхъ воиновъ, золотыя украшенія и тысячи другихъ предметовъ. Теперь уже нѣтъ никакого сомнѣнія, что это городъ Троя—царя Пріама. Я отрылъ основанія всей стѣны, окружавшей городъ, и всѣхъ главныхъ зданій. Всѣ эти мѣста очищены отъ развалинъ. Въ настоящую минуту, я окончиваю большое сочиненіе на англійскомъ языкѣ объ этихъ раскопкахъ и расскажу всю исторію моихъ открытій. Къ книгѣ я прилагаю болѣе 200 рисунковъ, снятыхъ съ замѣчательнѣйшихъ изъ найденныхъ мною предметовъ. Моя коллекція троянскихъ вещей съ декабря 1877 года находится въ кенсингтонскомъ музеѣ, въ Лондонѣ. Въ концѣ нынѣшняго года я надѣюсь перевезти ее оттуда въ мою виллу, въ Афинѣхъ, которая почти уже окончена постройкою. Она вся изъ мрамора и желѣза, и потому безопасна отъ огня. Мнѣ дѣлаютъ предложенія изъ Америки, Англіи, Франціи и Германіи о продажѣ моей коллекціи, но я не рѣшаюсь разстаться съ нею».

are not in their possession.
Perhaps after all those I returned
to you (69-76) are what you
wanted. But where are 77-80?

Yours very truly, Philip Smith

The Bays, Parkfields, Putney, S.W.
March 25th 1880

My dear Doctor,

I received your letter of the 18th yesterday, as well as the three registered packets. I also received on Sunday a Telegram which (as often happens to foreign Telegrams) had become quite unintelligible in transmission.

I send you by this post the Slips 64-68; nothing having come from the Printer this week.

There are several points which I will mention briefly in order 1st. As to numbering the Cuts.

Now that I am familiar with the references to the numbers (often a long way forward & backward) I see that your numbers must not be altered. The reader must be warned, in a note to the list of Illustrations, to find the place of every cut in that list.

2nd I shall be happy, as you
propose, to save your time &
labour by incorporating my own
corrections with Sayce's on the Proofs.
My only object is to do what I can
to aid you in so great a work, & it
was with this motive that I have
endeavoured to explain in the
margin of my proofs the reasons of
corrections & other matters to which
your attention should be directed,
leaving the decision to you.

3rd I like the addition about
Homer very much, & have added
it to the Chapter on the 3rd City.
When you speak of my "enlarging
& beautifying it" by the extracts
you once sent from Grate &
Gladstone, you forget that these
went to the bottom of the sea
instead of reaching me. But
it does not need such improvements.

4th With reference to the depths
of the strata of the several
cities, we ought to have a

293 (8)
Diagram, like the one I made
for the "Quarternly" I inserted at p.
of the Old Book, but adhered to
till your later views of the 1st
& 2nd cities. At the bottom also,
the height of the ~~the~~ native rock
above the Plain should be
given & also a note, warning
the reader that the depths of
the strata of each city are
not uniform at all parts of
the Hill.

Expecting the remaining old
mentioned in your Note, that
I may finish its revision - &
with kindest regards, in which
the P.M.G. joints remain

Yours very truly,
Philip Smith.

Monsieur le Docteur Schliemann
à Athènes (Grèce)

Monsieur,

Je suis en possession de votre lettre
du 18 Mars — j'ai reçu également par le
même Courrier les mémoires que je vous
avais adressés.

Je n'ai nullement expédié vos lettres
par grande vitesse comme vous semblez le
croire, mais bien par petite vitesse.

Voici les renseignements que j'ai fait
prendre à la Compagnie Fraissinet et aux
Messageries Maritimes, relatif aux frais de
transport.

M. Fraissinet.

Petite Vitesse: de Paris, Domicile, au Pirée (Athènes) 26.50

Les 100 Kilog. soit pour 2669 Kilog. que pèsent vos
colis 1234. f.

Messageries Maritimes

De Paris à Marseille: 17.50 les 100 Kilog. dont
pour 4669 Kilog. 793. " "

Fret de Marseille au Pirée, à raison
de 20 f le mètre cube, environ . . . 500. " "
Ensemble . . . 1293. " "

Mais avec payé 1300 f, donc vous voyez
que la différence n'est pas grande, néanmoins,
je trouve comme vous le total très lourd.
Cie de l'aux - Je ferai pour le mieux de
vos intérêts pour la concession nouvelle à obtenir
Boulevard Saint Michel.

En ce qui concerne l'appartement
à louer dans cette maison, Monsieur
Lionet m'a demandé à le louer
via moi encore, je lui ai demandé
3000 f, et j'attends sa réponse.

Je ne vois aucun inconvénient à
convenir cette prolongation, attendu
que l'écriteau restera posé, et qu'Octobre
est un bon terme.

Je n'ai en conséquence aucun

amateur sérieux, et nous touchons au
terme d'avril.

Je m'occupe de faire faire les
assurances dont je vous ai parlé.

Veuillez agréer
Messieurs,

La nouvelle assurance de mon
cartier désireusement.

P. S. I will give the Printers
the necessary directions about
the numbering of the Cuts-

I see that, in several cases
where you have used the
old cuts, you have struck
out the old descriptions, without
inserting new ones. I leave
these for you to add in proof.
Every cut should have a description
however brief, besides that given
in the text-

The Bays, Parkfields, Putney, S.W.
March 27th 1880-

My dear Doctor,

You will have seen that my
letter of Thursday was written
before the receipt of yours of the 20th,
which has arrived this morning.
You will ^{now please to} consider what I said
about numbering the cuts as
entirely superseded by what
you have now written -

According to your wish, I
will now number the cuts
consecutively from beginning
to end, & I will arrange the
numbers in the text to suit
the new numbering. There
are only two difficulties in
carrying this out, but I think
I can get over them both -
1st The forward references to cuts.
Fortunately, in reading the old,

I have made a complete list of all the cuts, with the page of the MS. to which each belongs. This list will be complete as soon as I receive the rest of your MS., & as of course nothing will be printed off till all the book is in type, I can adjust the numbers & the references to them from beginning to end.

2nd The other difficulty arises from the cases in which objects belonging to different cities have been engraved together. But you may be glad to know that in several cases, owing to cuts being printed together you have supposed them to be on the same block when they were really separate, as I know from the Proofs.

As the other cases, in which it may be necessary to cut the blocks and take new cuts or re-engage, I will write to you the only case of difficulty I know of. I have not done.

I enclose several examples of this sort, which I have cut out of the MS. & have transferred to their proper places, & I send them to you because you can decide their places with perfect accuracy, whereas I might make some mistake. I would suggest your keeping them till you get the plate proofs to which they belong, & then inserting them at the proper places on the slips.

I have now revised for the Printer all the MS. you have sent, down to p 1662.

I break off the correction of the Slips 69-80 to write this, & I doubt if I have time to finish them all for to-day's post. If not, I will keep back the Slips relating to the "Dominion of Prussia & Silesia", the rather

Dear Dr. Schlegel.

I have but a few moments to write to you as I am making preparations to leave for the interior where I remain some little time. I repeat your misunderstanding with Vichon - perhaps he will not interfere with your work, for what he publishes is not for the general reader - but this is a matter which you two alone can arrange between you. I am sorry for Nicola, for I do not think it was he that abstracted the idols. it may be his negligence is to be blamed - I have not heard of any travellers having bought any of the idols. When I return to the farm I shall send some one to track the Bornabashi stream from its junction with the Scamander to its source.

Your remarks on Vichon's notes on

1880
For Calver

my paper surprises me, for he wrote
my views generally coincided with his own.

Since last writing to you, I found the
tomb of a chief on the side of the cutting
at Hanai Tōpēh - This I dug out carefully,
with my knife, to ascertain the position
of the body - as it is remarkable I send you
a sketch, taken looking down into the tomb -

The fault I find with the engravings
you have had made, is, they are too much
reduced and the effect is in great part
lost - Ophrygium, I place to the north
of Pankiri - I published an account of
this ancient site in the Journal of the
Archaeological Institute - In haste

Very sincerely yours

My dear Schieffelin

Mr. Florence has shown
me some of your revised
proof slips. The corrections
are very heavy. I must
warn you very costly. I can
not help thinking some of
them superfluous & say
I'd be cautioned not to alter
for alterations sake. At all
events - with this amount
of change, it wd be folly to
think of making up into pages.
before you see a revised. You
run risk of much further

Dr Henry Schieffelin

expenses & and gain nothing
in time - It is more costly to
alter in pages than in slips.
I am glad you are pleased
with (lower printing of Greek.
Before they begin they have
to fill in the accounts through-
out.

Whymper has got Calves
2 plans: they are more simple.
Mr Smith has now received
nearly all your MSS to
p 1600 & it has gone to Printing
Cooper is writing to Brock
has your offer - now
corrects

Map of Iraq has gone again
to Stanford - & 3 proofs of
Section of Greek are sent
to you by Book Post today

My Dear Schumann
Yours very sincerely
John Murray
