H. Schlimmann & Co

Troy

Dear Sir,

We wrote you last on the 18 May & are in receipt of your favour of the 24, the contents of which had our best attention.

Due note has been taken that you have authorized M. J. Dendopoulos to value on us for £ 100 — at 3 % sight & also of your standing orders to sell your Egyptian Preference & State Domain Bonds, should they rise at the price of purchase, say 96 ³/₄ & 96 ¹/₂ respectively.

With regard to the 6% Loan of the Alabama & Orleans & Texas RR Co we have to tell you that in consequence of the general flatness of all American securities, the application was not sufficient to justify the Directors

in making an allotment, but, this loan will, no doubt be offered again to the Public in another form shortly; when we shall again ask for your authorization to subscribe, as we can only repeat that we believe the same to be a first class security.

We wrote to the Imperial Ottoman Bank to hold at your disposal £ 200-300 more on our letter of credit of 22 Octob. 1881.

We inclose state of encashment of your Coupons Egypt Domain amounting to:

£ 200-00 to day to your credit

This security is quoted 88 1/4-89 1/8

the Preference 90 1/8-5/8 Mayfield 70 1/8-71 1/8

We remain dear Sir, yours truly

J. Hunt & Co. Secy

Please notice that we credited you £ 1003.- for last draft on Mr Beaumont & not £ 1002.- as stated before

Monsieur,

In réponse à la lettre que vous avez bien voulu m'adresser en date du 25 Mai dernier relativement au logis des délégués Bodredolien et Marchareu Effendi, je m'empresse de porter à votre connaissance que, puisque dans la lettre du Ministère de l'instruction publique, à ce sujet, il est question de deux délégués, dont les appointements de l'un seront payés par le dit Ministère, et de l'autre par le pape, j'ai donné ordre à Marchareu Effendi de se rendre de nouveau auprès de vous, et j'aime à espérer, que vous n'aurez pas de difficulté à lui procurer un endroit, où il lui faut loger momentanément.

En attendant, je vous prie d'agréer

My dear Dr. Schieppani

The last skull was found
near Ciampilgia - I could procure
a number of entire skeletons, and
skulls, from the lowest stratum,
at Hanai Tepoh - where they are
well preserved, but require care
in removing - this, at a small
expense - If you think Professor
Trichon would appreciate these
bones, and you are agreeable, I
might attend to this matter on
my return from Lampraus -

I am sorry not to have
been able to accept your kind
invitation to breakfast, this

morning - for there are many
affairs which require my attention
at the farm -

Miss Latta thanks you for
the Times you were so kind as
to send, for her perusal -

With kindest regards from
Very sincerely yours
Frank Albert

I have a number of objects found in the latter part of the excavations at Hanai Tépé - which I forgot to show you yesterday - I suppose we had better send these to Berlin, to add to the collection already in the Museum -

Sir,

In April last, I had the pleasure of writing to you enquiring if you could oblige the Council of this Institute by lecturing here sometime during the next session, which lasts from October to March.

I stated that the Lectures were given on Monday evenings in our Large New

Lecture Theatre, holding about 1,000 persons, and lasted about an hour or an hour-and-a-quarter. Fearing my letter has miscarried, and as the Council are anxious to complete their arrangements as early as possible, I venture to trouble you with this further letter, and shall feel much obliged by an early reply.

If you can favour the Council, perhaps you will kindly state the dates and subject you would propose. Honorarium etc.

Yours faithfully,

H. Schliemann.

Edwin Porter
Secretary.

Mrs. Schlieemann. He spoke with great warmth of his acquaintance with you in former years. He has become a millionaire and exerts a great influence in California. His name is mentioned as a probable candidate for Senator of the United States from his State.

Mrs. Field joins me in kind regards to yourself and Mrs. Schlieemann.

I am, my dear Doctor,
Very sincerely yours,
Stephⁿ. Field

Dr. Henry Schlieemann.

P.S. The enclosed slip I cut from a New York paper of this last week. Notices to the same general purport are often seen in our leading papers.

Washington D.C.
June 5th / 88

My Dear Dr. Schlieemann:

I have not forgotten your request and my promise to send you a photograph of Mrs. Field and myself in return for the one of yourself and Mrs. Schlieemann which you were kind enough to give us when we were at Athens. My delay has been, to a great extent, caused by the fact that until quite recently we have had no photograph of Mrs. Field which at all pleased us. The one I now send is not entirely satisfactory -

to me at least. but is
one obtained.

Mrs. Field and myself
often recall the pleasant hours we
passed at your house at Athens.
It is a bright spot in our recol-
lection of our Eastern trip. As
your fame is world-wide we
have many inquiries of you.
After we have described to our
friends the wonderful remains of
antiquity at the ancient city,
the first question is, almost in-
variably, whether we have met
you there. Our regret is that
we had not the pleasure of
meeting you before the day of our
departure, and thus of seeing more
of you and Mrs. Schieffelin,
and hearing from your lips the

395 (6)
account of your wonderful
researches.

Within the last few days
I have been reading your auto-
biography - prefixed to your
"Ilios". and it has greatly in-
terested me and added to
my regret that I had not
met you years ago. Perhaps
I might have caught from
you some of that enthusiasm
and love for the writings of
the great Greek poets which
seem to have carried you
forward so successfully in your
labors.

I met, a few days since,
in New York, your friend Mr.
Davis of California, and he was
much interested
with all I told him of you and

Dr. Schliemann lives in princely style in Athens, in an imposing marble palace which bears on its front, above the door, the inscription in letters of gold: "Hall of Hiam." Here, every other Thursday evening during the winter, he entertains a hundred or more professors, journalists and statesmen. The spacious parlors afford room for more than three hundred guests. All the decorations of the house commemorate Dr. Schliemann's great researches. The floors are paved with Italian mosaics, the walls covered with Pompeian frescoes and patterns of objects found at Troy and Mycenae, and Homeric mottoes and inscriptions abound. At the family table classic Greek alone is spoken, and even the servants have classic names; the gardener is Priam, the porter Bellerophon, and the two nurses Hecuba and Polyxena.

Mitte April sollte Ihre Frau Gemahlin die Spätheim-

nehmen zu dürfen.

Meinem Freund u. Socius, Commerzienrath Eug. Langen

Es würde mir nun sehr großen Freude gereichen

Cher et honneur antipyrine,

Votre dernière lettre, dont nous avons apprécié toute l'importance, est en ce moment entre les mains de M. M. Didot, qui auront à en confier avec nous, car elle change, pour une bonne part, en un remerciement de votre lettre anglaise ce qui devait d'abord n'en être qu'une traduction fidèle. Nous nous associerons de notre mieux à vos instances, mais vous comprenez que de tels remerciements allongent le travail et en ajournent un peu la fin, d'autant plus que la mise en pages dépend souvent de l'insertion des figures.

Vous avez fait très sagement, en renonçant à l'appel. Dieu botanique, et en réservant ce sujet pour un mémoire à part. Doit la rédaction et la responsabilité reposant sur vos savants amis les botanistes de profession. Vous faites sagement aussi de songer à supprimer ça et là quelques longues notes dans l'insertion n'étant pas nécessaire pour avoir vos deductions historiques. Il importe en effet, comme vous le dites, que

le volume ne grossisse par autre surmise. Or, les inscriptions déjà découvertes et celles que vous m'annoncez paraissent devoir demander quelques pages. Je ne pourrai pas m'en occuper avant la fin de mon séjour en Sorbonne; c'est à-dire avant les premiers jours de juillet.

A ce propos, j'ai bien souvenir de vous avoir envoyé, au commencement de mai, un exemplaire de l'officette-programme de nos cours en Sorbonne, où vous avez dû voir que Georges Perrot considère toutes les lectures de son dernier trimestre à nos découvertes en Troade et à Mycènes. C'est la même témoignage fait à votre honneur, de l'importance qu'il y attache.

La poste orientale aurait-elle par malheur égaré ce document?

Quant à l'ἀμφικύπελλον, le philologue est tout résigné à laisser pavillon devant l'autorité des antiquaires.

Mais les deux antiquaires parisiens que j'ai pu consulter, M. M. Dumas et Perrot, hésitent. L'un est l'autre à prendre un parti. F. Lenormant m'a du moins communiqué le mémoire de M. Helbig, dont M. Bon vient de faire à votre instigation l'analyse ci-jointe, et vous verrez

que ce mémoire tend à conclure en votre faveur. Mais je n'ose pas vous envoyer l'opuscule original, puisqu'il n'est seulement prêt et qu'il serait peu convenable de l'apporter aux risques du voyage.

Vous voyez que nous sommes fort occupés de vous, pleins de curiosité pour vos nouvelles découvertes, et que nous en attendons le récit avec une juste impatience. Je vous félicite d'appeler, comme vous le faites, M^{me} Schliemann auprès de vous, et je vous prie de partager avec elle nos meilleurs compliments et encouragements.

E. Le Gues

P. S. Il est bien entendu que nous gardons le secret sur le résultat de vos feuilles récentes, et que ce résultat, d'ailleurs difficile à déterminer d'après vos simples confidences, ne sera communiqué au public que par la nouvelle publication de votre *Illos*.

Mon cher Monsieur,

D'après les belles découvertes que vous faites, j'ai pu le faire savoir à M. Egger que vous l'avez fait savoir, de insérer dans l'édition française tout ce que vous découvrez.

Je suppose donc votre conseil, savoir de faire mettre en pages les 11 premiers placards et d'attendre pour la suite vos additions.

Quant à composer toute la traduction d'avance, nous ne pourrions pour le faire, ne voulant pas immobiliser complètement notre caractère.

M^{me} Egger aura ainsi un peu de repos pour continuer tranquillement et conduire à bonne fin sa traduction, de manière à ce que plus tard, quand

vous serez de retour, nous
pourrions rapidement entrer
à volume.

Il redout beaucoup pour
vous la grande chaleur, surtout
de vous continuer la frottilles pendant
le mois de juillet. Menagez-vous.

Viueley avec une bonne
assurance de ma considération
dévouée

Cher Monsieur,

Je viens vous demander un renseignement qui me serait fort utile.

Sous citer souvent M. Emile Burnouf soit en vous référant à lui pour telle ou telle assertion, soit en le citant plus ou moins longuement sans dire jamais dans quel ouvrage sont prises ces citations; elles me viennent évidemment par des Mémoires sur l'antiquité (1874) ou de l'Histoire, ou plutôt la Science des religions, ou de rien dont j'ai trouvée trace; je croirais plutôt qu'elles proviennent de lettres, notes ou mémoires adressés

is I got dead

S'is à vous directement et restés manuscrits.

Quoiqu'il en soit elles ont été dirigées certainement en français et mises en anglais par vous. Si votre traducteur les envoie en français, la pensée originale perd beaucoup en exactitude et en sûreté d'expression et M. Burnouf pourrait n'être pas content de cette manière approximative de les reproduire, sans compter que mon travail serait bien allégé si je n'avais qu'à copier ces textes. Je suis notamment arrêté par la citation qui s'étend de la page 307 à la page 311.

Veuillez donc bien, cher Mon-

Sieur, me venir en aide par une indication ou une communication des travaux de M. E. Burnouf dont vous vous êtes servi.

Agrées mes vœux affectueux,

Thérèse Egger

MORTGAGE LOANS.

FIRE INSURANCE.

No. 34 North Delaware Street,

INDIANAPOLIS.

INDIANAPOLIS.

The Capital of Indiana, is the most flourishing inland City of America, and one of the greatest railroad centers on the Continent. The town site was first occupied as the Capital in 1800, but the State departments were not removed here until 1825. The City government was first organized in 1847, about the time the first railroad reached the place. Since then the history and marvellous growth of Indianapolis has been the wonder of the age. The following official figures will show the rapid.

INCREASE OF POPULATION.

In the year 1800, population	8,000
" " 1820, "	25,000
" " 1840, "	40,000
" " 1860, "	50,000
" " 1880, "	100,000

Indianapolis has become a great manufacturing and commercial center, reaching out to every part of the world for business, having all the modern conveniences and improvements of a great city, with property established and the future beyond the reach of accident. Nothing is more conclusive of the future prosperity of the city than the fact of its freedom from fire and 2nd class.

LOW RATE OF TAXES.

The following table shows the total rate of taxation for the last five years:

Year 1877, City Tax 1.12, State and County 90, Total 1.92			
" 1878, "	1.08	"	.74
" 1879, "	1.05	"	.65
" 1880, "	1.02	"	.60
" 1881, "	1.00	"	.50

The total average being only about 1.25, which is lower than any other City of the State, and, with one or two exceptions, lower than any City of the Union. Indianapolis is ahead of all rivalry as a

LOCATION FOR MANUFACTORIES.

and can offer inducements not surpassed by any City in America. Her situation, geographically, is all that could be desired, and her great railroad system supplies everything with material and labor. Indianapolis is situated in the center of one of the richest agricultural districts of the West, and her population is principally composed of the most substantial and intelligent class of people, full of business, bank-broke and energy.

The following is an extract from a recent editorial of one of our daily papers on

THE CITY OUTLOOK.

"All the indications point to a decided revival of business and prosperity in Indianapolis. The city has reached bottom in respect of business depression, and hereafter its course will be steadily upward and onward. During the dark times that prevailed before the panic, Indianapolis was badly injured. The city was so badly shaken that many thought the city would escape altogether and continue its unoccupied career of poverty without information or reaction. But that was not to be. In the nature of things it could not be. The panic struck us in 1873, and when the reaction did come, it was tremendous. As the city was one of the last to be affected by the panic, so it has been one of the slowest in recovering. In proportion as values were inflated, and the future growth and progress of the city retarded during the speculative era that preceded the panic, in the same proportion it has taken longer to recover from the effects and to resume again the conditions of healthy and normal growth. But this has been done. The city has now to feel the power of its infinite period, and is prepared to resume its career under more auspicious circumstances than ever.

We can, therefore, confidently say that, to those seeking a location for the

INVESTMENT OF CAPITAL.

in any department of commerce, manufactures, or Real Estate, or to the man depending upon his intellect, energy or skill alone for success, Indianapolis extends a generous welcome and offers advantages and inducements worthy the careful attention of all.

CHARLES E. COFFIN.

"Nothing succeeds like success."

SOMEWHAT PERSONAL.

Following is an extract from annual report of "Merchants' Exchange" on the

INDUSTRIES OF INDIANAPOLIS.

"No business is of more importance than the Real Estate Agencies. A great portion of the property of a city is entrusted to these agents, either for selling, mortgaging or renting. In pursuance of this business, they necessarily influence the value of realty, fixing the selling or renting price, and, while doing this, their assistance is invaluable, filling the trouble and annoyance attending those matters from the minds of the owners, and relieving them from much petty care. It is a business requiring energy, industry and sound principles. One of the most successful agencies in this city is that of Mr. Charles E. Coffin. He started in this business with Moore, Willet & Martin, in January, 1867, and continued with them six years, since which time he has been in business alone. He employs seven assistants, and Mr. C. E. Coffin is his efficient book-keeper and manager of the rental department. Mr. Coffin was born in this State July 13, 1830. He possesses all the qualifications necessary for making him a valuable man in the business—activity, prudence, good judgment and keen business tact. The dual relation sustained in this agency between both the owner, lender or mortgagee and the buyer, tenant and mortgagee, calls for the best of business talent and for the most courteous and affable manner, as well as the strictest integrity. The success of Mr. Coffin fully attests his popularity and established reputation for integrity. Close attention to business, spright and honorable dealing has placed him on a solid basis, and he is a genial, courteous gentleman of irrefragable reputation."

A MODEL HOME.

No city in the country, of the size, and boast of as many attractive edifices as Indianapolis is today possesses. The diversity of architectural design is a subject of general comment. Among the most conspicuous is the architecture of the city, in the new residence of Chas. E. Coffin, Real Estate Broker, on the corner of Pennsylvania and Seventh streets, an illustration of which we herewith present to our readers. Taking the arrangement of the house as a whole, we may safely denounce it as a model of perfection. The house contains ten rooms, bath room, two halls, laundry, cellar, furnace room and attic. The style of the architecture is of the Queen Anne pattern, considerably modernized. The handsome carved wood mantels, with massive decorated tile, the library, side-board and stairway are evidence of the fact that nothing which good taste could suggest has been neglected. Heating pipes, electric bells and larger appliances are among the acquisitions of the modern improvements.

The contractors were the Builders' and Manufacturers' Association, who have turned the building over to the owner without the modern appendage of mortgage or mechanic's lien.

Mr. Coffin and his estimable wife can surely appreciate themselves in the knowledge that they possess the model home of Indianapolis.—*Hoover Editor.*

"The safest investment known for money."

REAL ESTATE DEPARTMENT.

Indianapolis never had more real solid prosperity than at the present time. There is no "boom" in any one business, but a good healthy trade in all. Real Estate is in fair demand at reasonable prices. We have recently added to our sales department the services of MR. JOHN CARTER, who is a man of long experience, strict integrity and good judgment. We do not transact any business by or through "cork-stone" brokers, nor any outside agents. Public attention and square dealing is guaranteed to our customers from all the attaches of our office. We therefore cordially solicit, and confidently expect to receive in the future as we have in the past, our full share of the Real Estate trade.

We do not publish a descriptive list of the property on our books, for obvious reasons; but we are always ready to give full particulars, price, terms, etc., to all who mean business and desire to purchase. The following will give some idea of the character and extent of the property we have on hand

FOR SALE OR EXCHANGE.

HOUSES AND LOTS, all sizes and kinds, on terms to suit.
BUILDING LOTS, in all parts of the city, on easy payments.
BUSINESS PROPERTY, well located, paying good rents.
PROPERTY IN SCHENCK, and suburban towns of this county.
COUNTRY TOWN PROPERTY in Indiana and other States.
GARDEN PLOTS near Indianapolis, from 1 to 40 acres.
IMPROVED FARMS in Marion County, from 40 to 400 acres.
FARMS, TIMBER AND MINERAL LANDS in Indiana and Illinois.
FARMS AND FARMING LANDS in Western and Southern States.
WINTER LANDS from \$1 to \$50 per acre furnished at any time.
LAND WARRANTS and Agricultural College Scrip.
BOTANICAL, Stocks, Bonds, Claims, etc.

PERSONS BUYING REAL ESTATE

through our office can depend on correct title papers, drawn in due form, and properly executed; we require owners to furnish an Abstract of Title to property purchased. It is not safe to guess that a title is good because you have "known the property for twenty years;" any assurance that an honest man will always have a good title.

OUR PRICES

will always correspond with owner's prices. We sell property only on commission, giving the purchaser the full benefit of the owner's lowest price, and the owner the full benefit of the market. To persons desiring to make

INVESTMENTS IN REAL ESTATE

we would say that our facilities are such that we can, on short notice, find opportunities to purchase desirable property that will pay a good interest on the sum invested, besides affording a profit in the external increase in the value of property well located.

CHARLES E. COFFIN.

"Trade is the Mother of Money."

OWNERS OF REAL ESTATE.

Desiring to dispose of their property at fair prices are respectfully solicited to enter same on our books. Our facilities for making sales and trades are not surpassed by any office in the West. We can sell property at its fair value, but do not care to encumber our books with any kind of property at fancy prices. Cheap property will always claim our attention, and receive our best efforts.

We never ask the buyer more than the owner asks, and not accept the agency of any property at a set price, with the idea of making all we can over that for our fee.

Persons placing property with us for sale or trade are required to give us a written description of same, with price, terms, etc., and when sold furnish an abstract of title for the benefit of the purchaser.

All entries will be held to be in force until changed or withdrawn by written notice.

Persons desiring their

PROPERTY ADVERTISED,

can leave a fee with us for that purpose, which will be used to best advantage, or as directed, and in case sale is made this amount will be deducted from the commission.

We have had a great deal of experience in selling

REAL ESTATE BY AUCTION.

and persons desiring to dispose of their property in this way, can make special terms with us as to fees and expenses of sale.

TO ATTORNEYS

And others interested, we desire to say that we are prepared to act as Receiver, Commissioner, Trustee or Administrator in the management, partition, or sale of Real Estate in litigation or under foreclosures. All inquiries in relation to any branch of our business, or the

VALUE AND DESCRIPTION

of City Real Estate will receive prompt attention. We can furnish, on short notice, full description, with appraisement and plat of any property in this City or County.

For Real Estate Commissions and Office Fees see last page of this circular.

RENTAL DEPARTMENT.

This is one of the most important departments of our business, and is under the efficient management of Mr. Charles L. Holloway, with a competent corps of assistants. We have long made a special feature of the

COLLECTION OF RENTS.

and the general management of city and farm property belonging to non-residents, or others who may find it desirable to have the assistance of an agent in such matters. We believe property holders, as a rule, will find it in their advantage to have their rents collected by an agent, who is addition to making cash collections promptly, will exercise a general supervision over both property and tenant, according to such requests as may, from time to time, become necessary, pay the

TAXES AND INSURANCE

as they fall due, and in case of vacancy, obtain desirable tenants as speedily as possible.
Our facilities for securing good tenants promptly, enable us to keep our property occupied, and thus save the frequent loss from vacancies. The careful superintendence of necessary

REPAIRS AND IMPROVEMENTS

on property in our charge is a great saving to owners, in time, trouble and money.
We attend to all legal business required in the management of tenants, without extra charge, and thus often save to owners more than our commissions and attorney's fees.
Our experience of over fifteen years, together with our thorough knowledge of the

LAW OF LANDLORD AND TENANT.

warrant us in saying that we can take better care of property, secure a better class of tenants, and collect more rents as agents, than the owner, or any person with less experience in the rental art.

We collect rents promptly, and make reports to owners on first day of each month, enclosing vouchers for all expenditures and check to balance. Our terms for collections will be at the lowest possible rates, according to the circumstances of each case. See last page of this circular.

It is not desirable, but we sometimes consent to secure tenants for persons who collect their own rents. We can not, under any circumstances however, do this for property in hands of other agents at same time. All persons desiring to rent, rooms in our office any way, and a double agency only brings the property into competition with itself, and is annoying alike to all parties.

TO TENANTS

we desire to say that we have a large list of Dwelling Houses, Lodging Houses, Business Property and Farms on our rental list, and if none suitable are vacant when you call, we will make a memorandum of what you desire, and do our best to accommodate you.

Persons renting of us are required to furnish satisfactory references; blanks for which, together with a copy of our rental rules will be furnished to all applicants.

MORTGAGE LOANS.

We negotiate loans on improved property in Indianapolis and farms in Marion County, on the following

TERMS AND CONDITIONS:

1. Mortgage to be first lien on the property.
2. Loan not to exceed one-half value of the security.
3. Property must have rental value above interest and taxes.
4. Interest, at lowest market rates, payable semi-annually.
5. Loans made for from one to five years, in sums of from \$500 to \$50,000.
6. Borrower to pay for Abstract of Title and all expenses of loan and insurance on lot and farm property.
7. We never accept a loan for more than one-half the real value of the property mortgaged; it is ample for the borrower and equally so for the lender.

TO CAPITALISTS OR CORPORATIONS

Desiring to make investments in Real Estate or Real Estate Securities, we offer our services and experience, which extends to the character and value of City and Farm property, as well as the proper form and execution of title papers, mortgages, bonds, etc. We attend to the placing of Loans or First Mortgages, at the best obtainable rates of interest. The borrower pays all commissions and expenses; when so requested, we attend to the collection of semi-annual interest, and all things necessary to be done during the continuance of the loan.

We give our personal attention to this department, and in making investments, we guarantee the exercise of every possible precaution to secure their absolute safety.

FIRE INSURANCE.

There are few matters of more importance to, or so little understood by property owners, as fire insurance. Few know even the names of the companies whose policies they hold, much less their terms, conditions, or standing. Your policy of insurance is next in importance to the

DEED OF YOUR PROPERTY.

See to it then that it is a WARRANTY deed and unimpaired! Do not be deceived by "cheap" insurance. Prove its insurability quality. Get the best of ultimate indemnity. Buy the best. We represent the

"OLD AND TRIED" GLENN FALLS,

AND OTHER

First-Class Fire Insurance Companies,

and can place insurance in any amount at fair rates. We have neither time nor inclination to prosecute our friends and customers with continually "hunting" them for their insurance, but respectfully offer our services and experience in writing your insurance in some of our FARMERS, at the lowest rate consistent with safety, and in such form and manner as that your property will be properly covered and all trouble in adjustment avoided in case of loss.

 your book, it is not for me

 that a great deal of what is
 now in print will have to

 for the book is much greater
 in America than here, and as
 the Harpers want to print

 it seems to me, will be to

 they will work me to the

 they may send me casts of those

 I ought to have stereotypes

 as the English edition. I list
 is concerned - to let it stand
 as it is, and alter nothing
 but to add a supplement
 containing all your new news
 & new discoveries up to the time

344
408(a)

of your leaving off the
excavations. This should contain
the new plan by Höfler & Döppeler
which is all important, but
it need not entail your
conceding anything. Indeed
you cannot do so, without
altering the Index & the numbering
& making a dreadful confusion.

This supplement you would
sell separately so that those
who have the original Book,
can add it to their copies, &
it may be incorporated in
the 500 that remain, so that
they may have a chance of
selling, but no one would
have any reason to complain.
This is the simplest device

straightforward plan & I feel
sure the best.

If Harpers like to incorporate
the new information, in the body
of the work, they must reprint
nearly the whole. If they do this,
their work will become the
principal English edition, & there
is no harm in that. The English
purchasers of your work will
have nothing to complain, if
you give the new materials
added in a separate form.

The French Book will likewise
be practically a new edition -
& must be much improved
by leaving out the Roman &
Greek deal heads, & since
these never compete with an
English one in our markets

My Dear Dr. Schliemann,

I am exceedingly sorry that you find it impossible to come to Oxford to receive your degree this year, as I have now given up my intention of going to Asia Minor. I found that I could not get away from England soon enough. Perhaps next year we may be able to travel together thro' Lykaonia, Kappadokia & Phrygia, - the home & nurse of Trojan civilisation.

I am very anxious to hear about your great Recovery. How I wish I could have been with you when it was made! Do Mr. Schliemann also at Hisarlik?

I do not think that the markings on the wheel ~~you~~ as you have sent me a copy are intended to be characters. They are like no known character, nor do they resemble the letters preceding.

Милый возлюбленный папа!

В настоящее время я по при-

командировке в Луцк. Работы
у меня здесь очень много.

Луцк весьма живописно распо-
ложен на берегу реки Стари
и представляет собою один из
наиболее древних городов
России. Построен он еще в
IX в. н. э. Среди разных досто-
примечательностей, свидетель-
ствующих о древности и рас-
цвете города, особенно замечательны развалины замка

Любарта съ двумя прекрасными
сохранившимися башнями, еще
издали грандиозно возвышающа-
мися надъ городомъ.

Кроме замка Любарта здѣсь
имѣется еще рядъ другихъ дос-
тупнейшихъ памятниковъ древности.
Въ настоящее время, я очень
занятъ делами моей службы,
но имѣю только въ будущемъ
несколько свободнаго времени,
посвящу его на внимательный
осмотръ всего здѣшняго древ-
ностей и тогда напишу Тебѣ
подробно о нихъ.

Съ нетерпѣніемъ ожидаю

Dr. Schliemann

My Dear Dr. Schliemann,

Very many thanks
for your kind letter of the
15th inst and its most
interesting enclosure.
I accept it as a pleasant
souvenir of the most
interesting day which
I lately spent at your
excavations. The only
regret I felt was that
I had not the good
fortune of seeing you
at the sacred shrine.

I have seen in
Cyprian objects similar
to these 'whorls' but always
attributed to them useful or
ornamental purposes. They
certainly belong to a very
early period - their being
votive offerings is quite a
new idea to me. In these
early days it had seemed
to me very natural that
tens-cotta should be used
for knobs, buttons &c. when the
moulding of metal was so
little known. - I must watch
the small hole in twisting wools.
I think there is a knob to
it for which the whorl would
have served admirably.

However you may be right.

and this adds another intensity
to the many
which have resulted from
your labours. -

It is very kind of you
to send me a copy of
your 'Elios' - I shall
read it over with a double
interest after having seen
the site. - Now that the
recent excavations have
established your views do
you consider that the
treasure which you found
~~was part~~ belongs to the
second city or to which?
Nothing interested me
so much at Troy as the
clearly defined traces of
the three epochs.

Dear Dr. Schliemann

Your letter of 13th June has followed me here and I regret much to hear that you have been inconvenienced by some difficulty regarding payments to be made on your account.

But here I cannot make the necessary investigation into the circumstances of the case, but I am writing about it to the Bank. The Officers of our Bank at

Constitution are, however,
 as a rule so desirous to give
 every accommodation to our
 clients, that I feel persuaded
 that there must have been
 some mistake or some
 difficulty which, when
 explained to you, will
 convince you that the
 fault was not with the
 Bank, and that every
 desire exists to carry out
 your wishes.

We all take great

interest in your disinterested
 operations, and I sincerely
 wish you success and that
 you may add to your
 former discoveries so
 interesting to art & science.

Mon cher frère !

Par une lettre d'Alb nous apprenons que
vous êtes réunis : Fricke et vous resterez à peu près
passage. Soit pour y continuer vos travaux et pour
recevoir la visite de M. le Professeur Virchow.

Ma femme et moi nous souhaitons vivement
que votre santé reste toujours aussi bonne et que vous
soyez récompensé pour vos grandes peines par quelques
découvertes importantes sur le terrain de Fricke.

Si vous voyez Karlshof et est possible que
pour y passer encore, car si vous partez pour y faire
une cure sereine. Fricke restera pendant mon
absence chez moi et ses tantes.

Alb associé M. Schlichter est très vaillant
et fait parfaitement saigner les affections pour moi.

Fricke et moi, nous le servons la
main, cher frère, ainsi qu'à la chère Sophie et mes
enfants et enfants.

Adieu et au revoir : Karlshof ; je suis
