AMPHORENSTEMPEL

Bemerkungen zu den Ordnungsprinzipien

Der im Sommer 1989 wiederhergestellten Ordnung liegen die Systematik und die Kategorisierungen von V. Grace zugrunde. Neuzuweisungen wurden nicht vorgenommen.

I. Betr.: KGA 1-2267:

Alle Nummern bis KGA (bei frühen Nummern nur GA = Greek Amphoras, später durch K = Kerameikos von denen anderer Grabungen abgesetzt) 2267 wurden von Mrs. Grace aufgeteilt in die Kategorien (für Großformate eigene Schubladen

A) Thasisch

B) Rhodisch

- a) alphabetisch nach Archonten- oder sonstigen Nam
- b) Diverses
- c) Unleserlich

C) Knidisch

- a) nach Typen (KT = Knidian Types), wichtig handschriftliche Typenliste von Kovacsovics mit Datierungsangaben nach Grace für die einzelnen Typen
- b) Unleserlich
- c) Early Knidian
- d) Late Knidian

(hier Problemgruppe KGA 2155. 2263. 2442. 44 Müßte nach Einordnung von KGA 444 als LK wohl spät sein, dagegen spricht Grabungsbefund Knigge bei KGA 2264! Steht Grace zu ihrer Einordnung oder wo einordnen? Konnte' aus Zeitgründen der Frage nicht nachgehen. Diese 4 Stempel gesondert in ?-Lade)

D ff.) CHios

Kos

Paros

Korkyra

Korinth

Pamphylien

Pontisch

Sinope

Parmeniskos-Gruppe

Römisch

Unbestimmt KGA 365ff.

(These are all together in a drawer, but the numbers are not supposed to be LK, A.D. says 19. IV. 91)

Mindestens eine weitere Kategorie (Monogramme u.ä.) muß existiert haben, Beschriftung war jedoch verloren. Es liegen zusammen KGA 2160. 2163. 2228. 2255 (letztere Nummer wohl nicht zuhörig). Diese Stempel ebenfalls in ?-Zeichenlade und nach Rücksprache mit Mrs. Grace einzuordnen.

II. Ab KGA 2268 (von V. Grace Pommer 1978 erste als Neufund aufgenommene Nummer) sind die Stempel 'im Prinzip' der Reihenfolge nach aufbewahrt. Herausgezogen wurden jedoch durch V. Grace oder sonstige Bearbeiter manche (oder alle???) sicher den Kategorien A=Thasisch, B=Rhodisch, C=Knidisch sowie den folgenden Kategorien zugehörige Stempel.

Unklar war mir

- a) inwieweit die betreffenden Zuweisungen von Mrs. Grace selbst vorgenommen worden sind, oder aber von Kera-meikos-Mitarbeitern, und - in diesem Zusammenhang -
- b) ob diese Zuweisungen in die Agora-Datbank übernommen worden sind.

Meine Ordnungsarbeiten haben sich deshalb darauf beschränkt, zu kontrollieren, ob die Zuweisung stimmen kann, ob sie auf der jeweiligen Karteikarte in der Schublade notiert ist, bei den KT-Nummern die Zuweisung im Inventar und auf dem Stempel mit Bleistift nachzutragen. Frau Grace's Zuweisungen zu KT-Nummern sind auf den Stempeln mit roter Tusche notiert. Nach Absprache mit Frau Grace sollten diese Nummern daher in roter Tusche nachgezogen werden; erst dann ist die Sicherheit gegeben, daß die Zuweisung auch von dem Agora-Archiv übernommen ist. Gleichzeitig muß kontrolliert werden, ob die Zuweisung auch in den Inventaren eingetragen ist.

III. Suchen von Neufunden:

Sofern Neufunde ab KGA 2268 nicht unter der laufenden Nummer aufzufinden sind, bleibt nur zu hoffen, daß wenigstens im Inventar eine Zuweisung (T, R, K oder KT, EK, LK usw.) eingetragen ist, und daß der Stempel mit Hilfe der Landschaft, Archontennamen oder K-Typen gefunden werden kann. Im Rahmen der Ordnungsarbeiten habe ich versucht, die Zuweisungen nachzutragen, für Vollständigkeit (vor allem bei T, R, und den diversen "Un-read") kann nicht garantiert werden.

IV. Einordnen von Neufunden:

Neufunde der laufenden Nummer nach anschließen (durchgeführt bis 2612). Erst nach Rücksprache mit V. Grace in die betreffenden Kategorien einordnen.

V. Noch zu erledigen!

- 1) Gegebenenfalls Zuweisungen nachtragen im Inventar
- 2) KT-Nummern in Rot nachtragen (s.o. zu II und beiliegende Liste)
- 3) Fotonummern nachtragen *sowie Publikationen*
- 4) Einordnen bzw. Beschriften der ?-Stempel (s.o. I.C.d; I.Ø/D)
- !!! 5) Komplettieren 2. Exemplar des Inventars durch Fotokopien

v. Heyfay

Halt an Ordnungsarbeiten an, liegen werden für mich

KT-Nummern rot auf den Stempeln nachtragen
nach Absprache mit V.Grace. Die Stempel sind
alle unter den KT-Nummern abgelegt.

Indications in the upper right corners classify handle and/or stamp, distinguishing 1) place of origin when known - T(hasos), R(hodes) K(nidos), etc.; 2) type of stamped vessel if not an amphora; 3) language if not Greek; 4) shape of stamp if not a plain (unframed) rectangle; retrograde inscription (indicated by an arrow). Inventory numbers and any other documentation go to the left, any descriptive comment to the right, dimensions unless otherwise specified being width by thickness of handle where stamped. Numbers in the middle are negative numbers.
