" 2345 (" 1243)]

Case 2

1.02

Held most of Paris's list "Maisons au
S. de l'Agora 1909", missing only
B 2325 (TD 1299), B 2374 (TD 1319),
B 2345 (TD 1243), which were found in Carl.

Held also 75 more.

Of Paris's list, B 2330^{L?}, 2337^L, 2341^L, 2395^L, 2403^L,
2404^L, 2406^L, 2411^L, 2486 not identified, 8 with 6 (marked) Latin

Stamps from B list have not been included in being numbered as B provenance, on cards.

Case 2 (revised after finding Paris list) 1.03a

in lists by

all stamps in Case 2 identify Paris (and another?)

with B numbers. There are several lists.

Paris gives provenance

"Missions au S. de l'Agave 1909" & one set of
and "Deux Etrangers" & ¹⁹⁰⁹ ~~two~~. Another is called simply "1908".

B numbers. None of these B lists contains consecutive

B numbers, nor is in numerical order; they are
evidently ^{from a} independent series; Presumably the
Kipler's list.

Hold nothing not in ^{one or other of the} B lists.

Then B lists had in addition (not in Case 2)
over,

(B lists)

The greater part of Case 48 (which see) [0.036]

The following from Case 1: TD 1240-1, 1243, 1299,
2374, 2763, 2900, 3027, 2807 (B)
1319, 1344, 1346, 1349, 1382

Some from Case 49 (which see)

Then from Case XIII (" ")

also not identical, as TD: B 2337
" 2486
" 2770 (660)
" 2938 (no reading or drawing)
and 649 (no B)

Case 3

1.04

Stamps all found listed in Paris lists PD (prev. division) 3 ^{or} PD 4 ^{or} PD 5 ^{or} PD 6 except
TD 1607, 1616, 1695, 1699, 1702, ~~and 1705~~
which have not been identified with them
in Paris lists. (They have old numbers, which
were copied on readings, but these numbers have
already been identified with other TD, of which
readings correspond, as these do not.)

Case 4

Stamps all found listed in Paris list PD
(Prov. division) 3, PD4, PD5, PD6 except
TD 1739, not identified in any Paris list.

Case 7

"Agave de Therophrastos 1908"

(T umbos)

Case 25

1.17

Found in Ellis TD 4006, listed in Paris PDq. list
(see under Case VII)

Case 27

1.18

Consists of TD 4133 - 4172. Of these
the following have been ident listed in Paris
list PD 5: 4133, 4135, 4137-8, 4141-2, 4145,
4147-8, 4152-4, 4157-8, 4160-66, 4169,
(a little over half). The rest have not
been identified in any Paris list.

Case 29

Is included in Paris R. list, marked

Schola NA jovia - 1908⁵

(This list includes also the following
 items found by us in Case VIII: 79
 850, 860, 866, 870, 891, 892, 915)

In BCH 1914, these example nos. are for types

My typescript "Stamped Handles in Delos, Third Report" ^(July 8, 1951) p. 2, states that on June 22, 1951, M. Daux "allowed me to take for study several folders of manuscript notes on amphora stamps made by the late Johannes Paris. These include a large number of readings of stamps in Delos."

Paris's readings recorded in Delos were found to be more than 2700, cf. BCH 1952, p.515. Most of these are accompanied by drawings by means of which it has been possible to identify them with stamps on specific handles which we found in 1950-1951; and to ~~isolate~~ ^{as a whole} isolate one section of his manuscript which does not correspond with anything we ^{have as yet} ~~have~~ found in Delos, and so provides a supplement to the handles we recorded.

September 23, 1969

My dear Georges,

I am herewith returning the Paris dossier, in a parcel accompanying this letter. My typescript "Stamped Handles in Delos, Third Report" (of July 8, 1951), p.2, states that on June 22, 1951, M. Daux "allowed me to take for study several folders of manuscript notes on amphora stamps made by the late Johannes Paris. These include a large number of readings of stamps in Delos." See B.C.H. LXXVI, 1952, pp.514 with note 2, and 515-516 with note 1. References are there given to earlier published notes on the work of J. Paris, who was lost in the first World War. His work is again referred to in Chapter XIV of Delos Vol. 27.

Paris's readings recorded in Delos were found to be more than 2700, cf. B.C.H. 1952, p.515. Most of these are accompanied by drawings by means of which it has been possible to identify them with stamps on specific handles which we found in 1950-51; and to isolate one section of his manuscript which as a whole does not correspond with anything we have as yet found in Delos, and so provides a supplement to the handles we recorded. This is the section composed of his XIII lists, i.e. handles found in 1913 by various excavators named by him. The Thasian from these lists have been included in the Bon volume, from his drawings. Through these manuscripts, we have entered our inventory numbers for the handles, i.e. the Delos TD numbers. These will make it possible to find individual handles copied by Paris.

I am leaving tomorrow for a holiday on Patmos, to stay perhaps 10 days, for some therapeutic sea-bathing. If the Delos 27 page proof comes, and you are leaving before I return, perhaps you will give it to M. Croissant to

keep for me.

Best wishes to you and Vida, and I hope to see you some day.
Yours,

Chère Virginia,

En rangeant des dossiers je retrouve une
note indiquant que nous vous avons remis le 22
Juin 1961 trois dossiers de J. Paris et un carnet
du même. Nous n'en avons certes pas besoin, mais
je voudrais ^{après 14 ans} ~~m~~ rassurer qu'ils sont toujours entre
vos mains, qu'ils vous sont utiles et que vous
avez veillé à bien les distinguer pour que vous
les retrouviez facilement le jour où nous vous les
demanderions.

Bien cordialement à vous.

Papers of J. Paris

The tie-folder containing the Paris dossier was returned to G. Daux in September 1969 (23 or 24.IX.69, see papers here). For what reason I do not recall, it has been back here with us now for some time, perhaps in connection with researches here by one of the French members? Something may turn up to explain the fact, among papers needing to be filed. I propose now to ask M. Debidour (currently working here, using our Thasian files) to see that it gets properly into the archives of the Ecole. I should inform M. Bruneau of this happening, as he has Delos more in mind.

Note that this folder, of notes on the Paris mass., includes our Delos records describing the Cases we found in Delos, and their markings. As we numbered Delos SAH by case-lots, a proper collated list of the cases ought to be made, with at least copies for the French School, in Athens and in Delos. For a good many of the handles, we would have here some record of finding-place.

89

8.VI.76 I have given a carbon
copy of this to M. Debidour and
he has put it into the dossier,
which he will take to the Ecole.
