since the kind of stamp is uncharacteristic, and neither of the names is otherwise known on Koan stamps.

There is no statement in the publication that the handle is double; we owe the information to Dr P.P. Kahane. Dr Kahane reports also traces of another stamp on the other rib of the handle, and it seems likely that this is the same second stamp as appears on (171) and (320), which have unusual name stamps much like that of (325).
